The Committee noted the information and Finance Department was requested to send the details on Interests accrued on the fund deposited with Finance Department to the Telangana CAMPA at the earliest since National CAMPA is very much insisting on sharing this information.

Agenda –IX:

Tie up arrangement for the balance nursery stock of CAMPA

It was informed to the Committee that as per the directions issued by the National CAMPA Authority, the planting targets of 2023 planting season under NPV component was reduced as the NPV component budget was restricted to 25% of the entitlement available to the State for 2023-24. Under these circumstances, the target for the advance operations for 2024 plantations also got drastically reduced.

This has resulted in large number of seedlings left over as balance stock after the planting season of 2023 as shown below.

A. Balance stock available after 2023 planting season (out of the nursery seedlings raised for 2023 plantations)	1,12,90,069

B. Nursery stock raised in advance for 2024 plantations, as primary stock in smaller bags and to be converted into bigger bags for producing sturdy and healthy planting stock for 2024 but left out as balance stock due to reduction in targets.	1,28,66,969

As such large quantities of seedlings are available as balance stock, no fresh nurseries were raised under CAMPA during 2023-24 and necessary tie up arrangements are made to utilize the balance stock to meet the total requirement for the 2024 planting season under CA and NPV components and also for the 2025 plantations under NPV. The required funds for conversion into bigger bags and maintenance of seedlings during 2023-24 are proposed to be met from the overall savings of the Annual Plan of Operations approved for 2023-24.

It is further informed to the Committee that after the arrangements for utilization of the balance stock are made as explained above, there is still a balance of approximately 67 lakh seedlings which could not be tied up to CAMPA and had to be tied up with Afforestation scheme of the State for providing necessary funds for their maintenance during 2023-24 and up to August, 2024. And this stock is proposed for distribution on cost basis to other departments / other states / general public and the cost collected needs to be reimbursed to CAMPA account after deducting the costs incurred under Afforestation scheme for conversion and maintenance etc.

This matter was placed before the Executive Committee of the Telangana CAMPA in its 11th meeting held on 15-02-2024 and obtained its approval for the tie up arrangements as explained above.

Further during the circulation of the file for approval of the Steering Committee, the Prl. Secretary to Government, EFS&T Department has suggested to utilize the balance nursery stock to the extent possible during 2024 planting season by exploring the possibilities of increasing planting target under CA component.

As per the suggestion of the Prl. Secretary to Government, EFS&T Department, additional CA areas of 2819.59 Ha for 2024 plantations were included in the revised APO to utilize 63.72 lakh seedlings of balance stock in 2024 planting season. And the matter is placed before the Steering Committee for information.

The Committee noted the information and requested the PCCF and CEO, CAMPA to take all the necessary steps to utilize the balance stock as proposed.

Agenda –X:

Ratification of amount taken as temporary loan from BIOSOT account on reimbursement basis.

The APO for 2023-24 was approved for Rs 455.30 Cr. However, an amount of only Rs 200.00 Cr was released up to **February, 2024**. Out of this, Rs 80.00 Cr was reimbursed to BIOSOT account from which the loan was taken to meet the committed expenditure for the previous year's works. And the balance amount of Rs 120.00 Cr was totally spent for the works of 2023-24 APO. Thus a balance of Rs 335.30 Cr was required to take up the works as per the APO of 2023-24.

To meet the urgent requirement of seasonal operations like maintenance of nurseries and plantations, forest fire management, forest protection, wage payments etc , an amount of Rs 70.00 Cr was taken as temporary loan from BIOSOT account on reimbursement basis in the month of February, 2024 and released to the Field Officers.

Hence it is submitted for ratification of the Steering Committee for taking the temporary loan from the BIOSOT account on reimbursement basis.

Revised

Following observations on the agenda items of Steering Committee are furnished below for inclusion:

1. There is a shortfall of about 350 ha under raising of C.A. in NFL & DFL during 2023-24. Raising C.A plantation is the most important activity under the CAMPA scheme. Special emphasis is required to avoid such shortfall and improve the performance in future.

2. Negligible achievement is noticed under the components CAT, IWMP during 2023-24.

3. Release of budget from the State Government appears to be a major impediment in implementation of CAMPA scheme in the state of Telangana.
