Construction, up-gradation and  
maintenance of inspection paths, forest  
roads in forest area, fire  
lines, watch towers, check posts and  
timber depots

Rule no. 5 (3) (d) of CAF Rules, 2018

Abstract of Construction, up-gradation and maintenance of inspection paths, forest roads in forest area, fire lines, watch towers, check posts and timber depots

(Rs. in lakh)

**PART – IV**  
**(MEASURABLE OUTPUT OF ACTIVITIES)**

**Part -IV Measurable output of all physical activities and targets of each permissible activity along with the period required for achieving the measurable output.**

**(a) *Physical and financial targets of each activity to be undertaken in measurable quantity along with the estimated cost of such activities in tabular form including details provided in Part ii and part iii.***

The Annual Plan of operations consists of Afforestation, Forest & Wildlife Protection, Bio Diversity Conservation components.

Afforestation: 1715.50 hectares under NPV and 1336.70 hectares under CA Out of total 3052.20 ha targets proposed in this component. Raising of Plantations to an extent of 330.00 ha. under Assisted Natural Regeneration envisages improvement and restocking of degraded open forest areas and to increase the quality of forest cover..

Nursery: Raising of 18.46 lakh seedling under CA and 32.57 lakh of seedling under NPV with Rs.314.74 lakh and Rs.396.60 lakh respectively are proposed to take up afforestation for the next year.

Soil moisture Conservation works are proposed as per site specific activities in Catchment area treatment with Rs. 1101.92 lakh and also under Net Present Value with Rs.332.07 lakh with total outlay of Rs.1433.99 lakh. These activities increase the ground water table level and will supplement water conservation programme.

Under the forest fire management, 1389.50 km of new fire lines creation is proposed to control the fires in summer season.

**Part -IV Measurable output of all physical activities and targets of each permissible activity along with the period required for achieving the measurable output.**

***(b) Measurable output of all physical activities to be undertaken along with period required for achieving the measurable output.***

The measurable outputs of all physical activities to be undertaken in this financial year will be done as per the Calendar of Operations prescribed in Forest Schedule of rates.

The Nursery operations which include raising of primary beds and transplanting will be done basing on the species type. The seedlings will be raised for the next year planting season.

The afforestation activity will be done during south west and north east monsoon season for both CA and NPV components for the respective Divisions.

SMC works like Check dams, CCTs, RFDs, STs, PTs will be done before the end of this financial year as per the field conditions.

Fire lines creation and maintenance works will be started in January month and completed before the start of fire season to stop the ground fires.

**Part -IV Measurable output of all physical activities and targets of each permissible activity along with the period required for achieving the measurable output.**

**c) Details of concurrent monitoring and evaluation report including 3<sup>rd</sup> party monitoring undertaken in past with photographs.**

All the CAMPA works are monitored and evaluated at the different levels of officers in the department from FRO to PCCF level, as well flying squad parties and vigilance wings are monitoring and evaluating the works and same is reported to PCCF (HoFF) on monthly basis, apart from this GIS and MIS wings in the Forest Department monitoring the plantations, fire points etc on daily basis with the coordination of FSI.

Third party monitoring by the Institute of Forest Biodiversity, Hyderabad was done from the year 2009-10 to 2015-16. The agency has given "State Monitoring Report" based on prescribed methodology and reported average plantation area, Forest vs. plantation cover, survival percentage of the plantation, average number of plant species. Basing on the reports submitted by the agency from 2009-2016 it is concluded that the CAMPA plantations in the state contributing for maximum green cover. The 3rd party monitoring for 2016-17 to 2018-19 by IWST, Bengaluru is under progress. Further, 3rd party monitoring for 2019-20 to 2021-22 MoU is under progress.

**PART-IV (a) & (b)**

**Measurable output of all physical activities and targets of each permissible activity along with the period required for achieving the measurable output**

**Compensatory Afforestation**

#### **PART-IV (c)**

Thirdparty monitoring by the Institute of Forest Biodiversity (IFB), Hyderabad was done for the plantation works raised from year 2009-10 to 2015-16. The agency has submitted "State Monitoring Report" assessing on the parameters like average plantation area, Forest vs. plantation cover, survival percentage of the plantation, number of plant species etc. Basing on the assessment of works executed from 2009 to 2016, it was concluded by the IFB, Hyderabad that the CAMPA plantations in AP state are contributing to maximum green cover. The Third party monitoring from 2016 to 2018 is under process. The overall assessment for the years 2009-10 to 2015-16 reported by Institute of Forest Biodiversity (IFB), Hyderabad is as follows and the relevant extracts of their M&E reports are enclosed.

CIRCLE WISE FINANCIAL ABSTRACT OF APO 2025-26

**Rc.No.8222/2024/CAMPA-I, Dated:27-03-2025.**

Sir,

Sub: Andhra Pradesh State CAMPA – Clarification on essential information pertaining to the Annual Plan of Operation for the Financial Year 2025-26 of Andhra Pradesh State CAMPA - Submission of - Regarding.

Ref. Asst. IGF, National Authority, New Delhi File No.NA-15/11/2020-NA, dt:24.03.2025.

\* \* \*

Through the reference, Government of India have requested to furnish some clarifications on essential information pertaining to the Annual Plan of Operation for the Financial Year 2025-26 of Andhra Pradesh State CAMPA for placing the same before the Executive Committee of National CAMPA for consideration and approval. The point-wise clarifications are as follows:

| S.No | Clarification requested                                                                                                                                                                                                                                                                                                                                                                                                         | Reply submitted                                                                                                                                                                                                                                                                         |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| i    | The Annual Plan of Operation submitted for the financial year 2025-26, with the proposed outlay amounting to Rs.260.89 crore, the State CAMPA should confirm the payment of interest amount on State share for the Financial Years 2019-20, 2020-21, 2021-22, 2022-23 and 2023-24 separately. Furthermore, the information regarding the accrued interest paid year wise and the amount available is requested to be furnished. | An amount Rs.284.57 crore interest accrued on CAF Deposits from 30.08.2019 to 31.03.2024 as confirmed by State Government vide Govt. Memo. No.977/Sec.II/2020/1950457, dt:02.02.2025. However, details on deposition of amount into public account were still awaiting from Government. |
| ii   | Please certify that the Compensatory Afforestation furnished is being carried out at the same sites as approved in the Stage-II forest clearance in accordance with the Van (Sanrakshan Evam Samvardhan) Adhiniyam, 1980, by the Central                                                                                                                                                                                        | Certificate was already submitted in APCCF & CEO, AP State CAMPA Rc.No.8222/2024/ CAMPA-I, dt:06.03.2025. However, the same is enclosed herewith.                                                                                                                                       |

|                          | Government. In case the site change has been made by the State Government, approval from the competent authority of the Central Government may be attached.                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |      |              |             |         |        |       |         |        |       |         |        |        |         |        |       |         |        |        |                          |        |        |

| viii | There are significant variations in the Scheduled Rates of Works from circle to circle, the reasons for the same may please be furnished. | Variations in the Scheduled Rates of works from Circle to Circle are mainly due to the variations in Collector's Wage rate as shown below. Further, variations in SMC structures are due to the variations in size of the structure in addition to the Collector wage rate. |
