Government of India, New Delhi - 110003

Sub: Submission of Integrated APO 2025-26

*Ref. Your File No. NA-15/1/2022-NA dated 18.02.2025
This office letter no. 4775 dated.28.02.2025*

Sir,

In inviting a reference to above referred letter on the mentioned subject this is to inform that the APO 2025-26 was sent vide above referred letter to National Authority.

The integrated APO along with other information as mentioned in your letter is furnished herewith for information and necessary action.

Yours faithfully

Encl. – Information
(i) to (xi) as desired.

Chief Executive Officer,
State Authority, CAMP A, Odisha

**Checklist of Information submitted as desired by National
Authority vide File No. NA-15/1/2022-NA dated 18.02.2025.**

- i. Integrated APO duly signed on each page.
 - ii. Minutes of State Steering committee meeting.
 - iii. KML files/Geo-coordinates pertaining to the areas proposed for Compensatory Afforestation and other plantation activities to be carried out.
 - iv. Details of the fund released by States/UTs Government to the Forest Department for carrying out CAMPA activities already requested vide letter no. NA – 14/1/2022-NA dated 20th September 2024.
 - v. Certificate of CEO, State CAMPA that the Compensatory Afforestation proposed in APO (2025-26) will be carried out on the same non-forest land/degraded forest land and within the estimated cost as per the approval granted under the Van (Sanrakshan evam Samvardhan) Adhiniyam, 1980.
 - vi. Status and details on receipt of interest amount accrued on State CAMPA fund for the Financial Years 2018-19, 2019-20, 2020-21, 2021-22, 2022-23, 2023-24 deposited by States/ UTs Government.
 - vii. Status of project wise reconciliation data of Compensatory Afforestation against each proposal of forest diversion since 1980 already requested vide letter no. NA- 1/6/2023-NA dated 26th May 2023, 3rd July 2023, 15th December 2023, 30th January 2024 and 18th March 2024, 1st May 2024, 4th July 2024, 8th August 2024 as the National Authority is yet to be received reconciled data vetted by concerned IRO.
 - viii. Committed liabilities of previous years of work.
 - ix. Details of spill-over over works.
 - x. Status of the Third-Party Monitoring of last five years.²
 - xi. Certificates as per prescribed format.
4. Five-year perspective plan for the utilization of NPV and Interest funds. Last five years progress report of approved APOs.

Format for Annual Plan of Operation Summary Submission 2025-26**Annual Plan of Operation (APO) for the financial year 2025-26 of Odisha State CAMPA**

1. Date of Receipt : :
2. Date of approval of EC of State/UT : 23.12.2024
3. Date of approval of the Steering Committee : 04.02.2025
4. Total Amount/Outlay : Rs.1078.10 Cr.
5. Funds status with the State/UT along with outlay proposed :

(ii) **Proceedings of the 22nd Meeting of State Level Steering Committee of State CAMPA, Odisha held at 11.30 AM on 04.02.2025 under the Chairmanship of Chief Secretary, Odisha.**

.....

The State level Steering Committee meeting of the State Authority CAMPA was held under the chairmanship of the Chief Secretary, Odisha on 4th February 2025 at 11.30 AM in the 2nd Floor Conference Hall of Lokseva Bhawan. The list of the officials/participants is at Annexure.

Initiating the discussion Additional Chief Secretary, FE & CC Department welcomed the Chairman and participating members and briefed about the functioning of State CAMPA. PCCF & HoFF, Odisha briefed the committee about provisions under CAF (Act), 2016 and CAF (Rules) 2018 which stipulates the manner in which the CAMPA funds would be utilised and the latest guidelines of National CAMPA. He also apprised the committee about the different activities of CAMPA under Mandatory Activity, Activity under NPV & Interest Component with an Outlay of **Rs 1078.10 Crore** for APO 2025-26. He further explained that the activities proposed are as per prescriptions of the Working Plan/ Working Schemes, Wildlife Management Plan.

Then the Chief Executive Officer, State Authority CAMPA gave a detailed presentation on implementation of ongoing APO 2024-25, present fund position of State CAMPA and details of proposed CAMPA APO 2025-26.

Progress of APO 2024-25

The APO 2024-25 was proposed for **Rs 1287.84 Crore** and National Authority CAMPA approved activities with an outlay of **Rs 1112.93 Crore**. The State Authority has utilised the fund to the tune of **Rs 804.06 Crore** as on 25.01.2025 through different Implementing Divisions.

The CEO CAMPA apprised the committee about the present fund position of State Authority as on 30.11.2024 which is furnished below

FUND POSITION OF STATE AUTHORITY CAMPA.

(A) Amount Received from National Authority after reconciliation up to 31.03.2023	8192.86 Cr
(B) Amount Deposited by User Agencies from 01.04.2023 to 30.09.2024	(+) 888.58 Cr
TOTAL DEPOSIT (A+B)	Rs. 9081.44 Cr
(C) Interest accrued from Loan to Govt. and ATB Investment up to 31.10.2024	(+) 1137.62 Cr
GRAND TOTAL (A+B+C)	Rs. 10219.06 Cr
(D) Expenditure	
i. Expenditure towards APO-2019-20	(-) 421.07 Cr
ii. Expenditure towards APO-2020-21	(-) 674.99 Cr
iii. Expenditure towards APO 2021-22	(-) 841.67 Cr
iv. Expenditure towards APO 2022-23	(-) 931.10 Cr.
v. Expenditure towards APO 2023-24	(-) 833.87 Cr
vi. Amount Budgeted for APO 2024-25	(-) 1287.84 Cr.
Total Expenditure	Rs. 4990.54 Cr.
Balance Fund Available with State Authority((A+B+C)-D)	Rs. 5228.52 Cr

Out of the total fund Rs 5228.52 Cr available, Rs. 5036.92 Cr. has been invested in ATB & Loan to Government.

ANNUAL PLAN OF OPERATION (APO) 2025-26:

Basing on the available funds position mentioned above, State Authority CAMPA, pursuant to the provision of Rule 39 of CAF Rule 2018, and guidelines issued by the National Authority incorporating the activities proposed by implementing Divisions in consonance with prescriptions of Working Plan/ Working Scheme and Wildlife Management Plan, has formulated APO 2025-26 with an outlay of Rs 1078.10 Crore.

ABSTRACT OF OUTLAY OF APO 2025-26

Name of Component	Financial Outlay (Rs in Crore)
Activities under CA, PCA, ACA	169.45
Activities under CA Others	14.33
Activities under CATP	3.37
Activities under IWLMP	274.67
Activities under NPV Component	514.68
Activities under Interest Component	101.60
Total	1078.10

The detailed componentwise activities proposed are as follows

1. SITE SPECIFIC ACTIVITIES INCLUDING CA, PCA AND CATP

New plantations under CA, PCA & CATP Activities are proposed in the APO under Section 6(a) of CAF Act 2016, considering the approved schemes and compensatory afforestation area pending for implementation. The status of Compensatory Afforestation is as follows.

The total area diverted up to September 2024	68106.190 Ha
Stipulation for Compensatory Afforestation up to September 2024	95848.231 Ha
Achievement of Compensatory Afforestation up to September 2024	79264.744 Ha
Balance Area to be covered for Compensatory Afforestation	16583.487 Ha
Proposed area for Compensatory Afforestation in APO 2025-26	6371.148 Ha

MCC

The details of new plantations and maintenance of previous years' plantations under Compensatory Afforestation, Penal Compensatory Afforestation, Additional Compensatory Afforestation etc. proposed in APO 2025-26 are given below.

1.1. Compensatory Afforestation, Penal Compensatory Afforestation, Additional Compensatory Afforestation etc.

The prime mandate of CAMPA is to fulfill the targets of compensatory afforestation plantation programme. Various models of plantation activities proposed under CA, PCA, Addl. CA in APO 2025-26 are; 824.86 ha block plantation, ANR with gap 6066.87 Ha, ANR without gap 30.53 ha, tall tree plantation of 9575 numbers and 18.998 RKM of Avenue Plantation. To achieve the targets of APO 2025-26 a financial outlay of **Rs 187.15 Crore** has been provisioned including ancillary activities for above CA, PCA, etc and maintenance of old plantations. The year wise activities of plantations including maintenance of CA/PCA/CATP etc are given below.

Year wise plantations activities and maintenance of CA/PCA/ACA/CATP etc

Sl	Year Operation	AR in Ha	Bald Hill in Ha	ANR in Ha	ANR without Gap	No. of Tree Plantation in Nos	Canal Bank/ Avenue Pltn in RKM/ Nos	Financial Outlay (Rs. in Crore)
1	1st Year	824.86		6066.87	30.53	9575	18.998	115.06
2	2nd Year	549.23	284.88	3531.29	155.80	61042	1.60	15.61
3	3rd Year	189.18	405.03	1354.48	159.32	29346		1.92
4	4th Year	498.64	168.08	2803.45	720.74	11550	1700 nos.	1.71
5	5th Year	185.44	344.61	3414.76	3.91	340	10.12	1.06
6	6th Year	87.46	727.85	2684.22	449.50	5050		1.46
7	7th Year	273.06	383.25	4488.23	93.17		31.10	1.37
8	8th Year	174.48	0.00	1218.36	0.00	640		0.35
9	9th Year	75.81	152.00	2878.89	0.00	100		0.61
10	10th Year	401.90	0.00	2745.83				0.73

Total		3760.06	2965.70	35186.37	1612.97	117643	61.818 RKM + 1700 nos.	187.15

MC

1.2. Site Specific Wildlife Conservation Plan

The site-specific wildlife conservation plan formulated by the DFOs aiming at Project wise site-specific interventions and approved at the level of Chief Wildlife Warden, Odisha, at the time of submission of Forest Diversion Proposal for approval by MoEF & CC are taken up for its implementation. A provision of **Rs.143.53 crore** has been kept in this APO to implement the current year interventions in respect of 272 nos site-specific wildlife conservation plans. (230 ongoing + 42 new)

1.3. Regional Wildlife Management Plan (RWLMP)

While sending proposals for diversion of forest land for mining purpose, State Government stipulate for realization of cost towards implementation of Regional Wildlife Management Plans across the state as per the norm fixed by the State Government. A Financial Outlay of **Rs 77.00 Crore** has been proposed in APO 2025-26 for implementing the activities of Regional Wildlife Management Plan as per requirement.

Further there is an additional requirement of **Rs. 54.14 Crore** towards refund (Part payment) of Compensatory levies against M/S OMC Ltd (Rs. 45.48 Cr) and M/S Tata Steel Ltd. (Rs. 8.66 Cr) in pursuant to GoI MoEF & CC Letter No: 8-23/2005 FC dated 10-01-2023 and letter No 37/1996-FC dated: 11-01-2024

Hence a total provision of **Rs.131.14 crore** has been kept in this APO to implement the Regional Wildlife Management Plan.

2. ACTIVITIES UNDER NPV

The following activities are permissible under Rule 5 (2) & 5 (3) of CAF Rule 2018 out of the money received towards Net Present Value (NPV) from user agency & deposited in the State Fund

2.1. ACTIVITIES UNDER NPV 80% [Rule 5(2)]

The following activities permissible under Rule 5 (2) of CAF Rules 2018 under 80% NPV component have been kept in APO 2025-26 as briefed below.

2.1.1. Plantation Activities:

In APO 2025-26, an area of 19500.50 Ha (ANR 18285 Ha + AR 1215.50 Ha) has been proposed to be taken up for plantation with an outlay of Rs.222.49 Crore including maintenance of old plantation of 105299 Ha. Different models of site-specific and species-specific plantation activities have been incorporated in APO 2025-26. In this APO, efforts have been made to accommodate various models of plantations considering the species diversity, feasibility, suitability of species and need of the forest dependent community and wildlife of the area. Under AR Plantation, various models have been proposed such as:

1. Economic plantation of High value species
2. Indigenous species plantation
3. River rejuvenation plantation
4. Bald hill plantation
5. Casuarina plantation
6. Mangrove plantation with fishbone Channel.

Similarly, under ANR plantations, various models have been proposed to be taken up such as

1. Vanya silk plantation
2. Fodder and fruit plantation
3. RET / Medicinal species plantation
4. Other Miscellaneous species plantation etc.

The detail of plantation program proposed in the APO 2025-26 is furnished below. Further, the proposal for maintenance of old plantations of last 3 years has also been kept in this APO.

Act/ Rule	Detail Activity	Physical Target (Ha)	Unit cost @452	Financial outlay (in Crore)
Rule 5(2)(a)	ANR Plantation			
	Plantation (0th + 1st Year)			
	Vanya Silk Pl. 500 Plants/ha	125	0.46924	0.59

	Spill over Works for Plantation Works of Previous APO			1.50
	AR Total	9058.50	-	49.16
	Plantation Total	124799.50		220.46
	Provision to meet additional requirement due to change in plantation cost norm & interim wage revision			2.03
	Grand Total			222.49

2.1.2. Regeneration of Degraded Bamboo Forests (SSO Bamboo):

The basic principle of bamboo forest management focuses on growth of individual culms along with regeneration of new culms from the rhizomes. Retention of old culms causes congestion and incidences of diseases & pests in bamboo forest. Hence treatment of bamboo clump is an essential silvicultural practice for bamboo forest management. Such bamboo forests are worked as per working plan prescription of the concerned Division. To maintain the health of Bamboo forests in the State, an area of **45000 Ha.** has been proposed to be taken up during 2025-26 for bamboo silvicultural operation with SMC measures for which a provision of **Rs.16.27 Cr.** has been kept in this APO.

2.1.3. FOREST PROTECTION

- a) **Forest protection** is an important part of forest management that focuses primarily on prevention & control of destruction of forests due to biotic interference. Steps are taken to ensure mobility of staff deep inside the forest and to improve their communication facilities for regular patrolling and during emergency situations. Improving the means for mobility and communication are key interventions in protection. In this APO 2025-26, it is proposed to engage **227 nos. of hired vehicle with fuel for protection activities** for whole year to increase the mobility and to reduce response time in case of emergency situation in all divisions covering all the Ranges. For this, financial outlay of **Rs.11.85 Crore** has been proposed in APO 2025-26.
- b) As per directions of the Hon'ble Supreme Court of India vide Order dated 06.07.2011 in I.A. No.1868 of 2007 filed by M/s Lafarge Umiam Mining Pvt. Ltd. in Writ Petition (Civil) No.202 of 1995 in the matter of T.N. Godavarman Thirumulpad versus Union of India and others, Odisha State Government had drafted SOP for Georeferencing of Forest Land. Therefore, digitization of the boundary of Notified Forest area and Revenue forests etc is being carried out in phases. In this APO an outlay of **Rs 22.00 Crore** has been kept to cover 20,838 Km² of Notified Forest area and 4,099 Km² of Deemed and Revenue Forest area.

MC

- c) Further, **Rs 3.54 Crore** has been proposed by Wildlife wing for such **protection/anti-depredation activities**, boat patrolling, fencing & erection of barriers, participation of community for protection, prevention of WL crime etc.

2.1.4. FOREST FIRE PROTECTION

Forest fire causes severe stress and create imbalance in the ecosystem and is also a major concern in the forest management. Large stretches of forest in the State are deciduous forest and highly prone to forest fire. Appropriate interventions including round the clock monitoring of vulnerable areas and deployment of Rapid Response Teams proposed for deployment in case of emergency are therefore required to minimize occurrence of forest fire in the first place and to effectively address the forest fire wherever it happens. Accordingly, following measures for management of forest fire in the state are proposed with total financial outlay of **Rs 36.05 Crore** for Forest wing and ~~Rs.7.65 Crore for wildlife wing in the APO 2025-26;~~

Detail Activity	Physical Target	Fin. outlay (Rs in Cr.)
Fire Protection Rapid response teams involving community youth with hired vehicle for Fire Protection	213 Nos	19.23
Creation and Maintenance of fire line	19500 Km	8.82
Procurement of Fire Blower including fuel and other accessories	306 Nos	1.99
Logistic support for fire squads	213 Nos	1.81
Training on Forest Fire to the frontline Forest Staff	283 Nos	0.28
Awareness Campaign in the ranges	283 Nos	1.42
Fire Watch Tower	10 Nos	2.50
Sub Total		36.05
Fire Protection in Wildlife Area		
Fire-fighting Squads including hired vehicle & its fuel.	48 Nos	4.33
Fire-fighting equipment including Blowers along with fuel.	100 Nos	0.65
Logistics support for the firefighting squads.	48 Nos	0.41
Fire line Creation & maintenance.	5,000 KM	2.26
Sub Total (WL)		7.65
Total		43.70

MC

2.1.5. Soil Moisture Conservation (SMC)

Soil and Moisture Conservation is an important activity to improve the moisture regime of the forest area and arrest soil erosion in degraded forests of the State. This will have positive impact on the growth and regeneration of vegetation as well as ground water level. An area of **5500 Ha.** of degraded forest Land of the State have been proposed to be treated under SMC with different interventions with an outlay of **Rs.21.40 Cr.**

2.1.6. Improvement of Wildlife Habitat

The State is having rich faunal diversity managed through wildlife organization of forest department. The management of wildlife is carried out through a network of protected areas which comes under various wildlife divisions and few territorial divisions. The management of wildlife habitat undertaken by the Wildlife Organization is supported by CAMPA as per CAF Act-2016 and CAF Rule-2018. In this APO, the Wildlife Habitat Restoration and Improvement have been proposed under NPV with an outlay of **Rs.39.75 Crore.**

2.1.7. Voluntary Relocation of Villages from Protected Areas

Voluntary Relocation of villages from the protected areas like Satkosia and Similipal Tiger Reserves, Debrigarh and Kotagarh & other Sanctuaries of the state has been proposed with a financial Outlay of **Rs 30.00 Crore.**

2.1.8. Management of Biological diversity, Biological Resources, Silvicultural Operation and maintenance of Research Garden

Plus tree, clonal multiplication Garden, Clonal seed orchard, Germ Plasm Bank, Progeny trials and production of QPM in Afforestation Program are main moto of research activities for bio-diversity conservation and augmentation of natural regeneration in maintaining research garden for which silvicultural research plays a key role in Forest Department. An amount of **Rs.1.50 crore** has been proposed for research activity and Silvicultural Operation and maintenance of Research Gardens.

2.2. ACTIVITIES UNDER 20% NPV FUND [Rule 5(3)]

2.2.1. Capacity Building

Capacity Building of the frontline staff of Forest Department is an essential component to improve the standards in their operation with recent guidelines and in the scientific management of Forest and Wildlife. Also, there is need to create awareness among community residing near forest areas in the overall management of forest and sustainable utilization of forest produce to fulfill the needs of their livelihood. For the above purpose, a total financial outlay of **Rs.0.50 Crore** has been provisioned in this APO.

2.2.2. Up-gradation of communication and Information Technology

To ensure the transparency in CAMPA activities digital monitoring is being adopted. A website for forest organization has already been developed to facilitate smooth operation of Forest IT. Proposal for upgradation of Communication and information Technology, Geo-ICT based Server infrastructure, procurement and maintenance of IT Equipment and devices in the Forest Wing has been included with financial outlay of **Rs.11.00 Crore**. In the Wildlife areas, it is proposed for installation of VHF base stations and their maintenance, Equipment for monitoring of wild animals and other means of communication in remote areas with financial outlay of **Rs.3.90 Crore**

2.2.3. Infrastructure development

The CAF Rule-2018 provides for utilization of CAMPA fund towards development of basic infrastructure required for forest and wildlife management under two broad categories of (1) Maintenance and construction of forest roads etc. and (2) Construction of Residential/official buildings for front line staff. In APO 2025-26, the following infrastructure has been proposed with financial outlay of **Rs. 30.44 Crore** for Forest and wildlife Divisions including spill over works of previous APOs.

MPC

Detail Activity	Physical Target	Unit cost (Rs in Lakhs)	Financial outlay (Rs in Crore)
Construction & Maintenance of Forest Road	350 Km	0.80	2.80
Range Office	4 Nos	39.73	1.59
Range Officer Residence	4 Nos	30.02	1.20
Forester Quarters	34 Nos	25.63	8.71
Forest Guard Quarters	50 Nos	20.26	10.13
Spill Over Works of Previous APO			1.00
Sub Total			25.43
WL AREA			
Maintenance of Forest Road/ Inspection path in Protected Area	626 Km	0.80	5.01
Sub Total (Wildlife)			5.01
Total			30.44

2.2.4. Casual Engagement of Local youth

Forest being the open treasury, illicit felling and smuggling are of great concern and challenge in the efforts to protect and conserve the green cover, though legal provisions are there to deal with forest and wildlife offences. Biotic and other anthropogenic factors affecting the quality of forest are mostly location specific and local community especially the youths having thorough knowledge about the terrain of the area should get more involved in the efforts of forest department in protection. Involvement of local youths in continuous monitoring against encroachment over forest land and unsustainable exploitation of the forest resources will be ensured. Such Forest Protection through community involvement through local youths with logistics being the key intervention has been given priority under CAMPA. In APO 2025-26, provision has been kept for Casual Engagement of Local youth to assist regular staff of state forest department in protection of forest and wildlife (10 persons each in 227 units for whole year). Under this activity **Rs 52.85 Crore** has been proposed for APO 2025-26.

M/C

2.2.5. Survey & Mapping of Forest Areas for CA Land Bank

Survey & Mapping of Forest Areas is required to create Land Bank for Compensatory Afforestation and to ensure its further protection for which **Rs.1.00 Crore** has been proposed.

2.2.6. Monitoring & Evaluation

Monitoring of all the schemes and their accounting and timely updating of the information, uploading of data in e-Green watch, OFMS Portal is an essential activity in the field. The internal vigilance wing is also assigned with the work to ensure transparency, qualitative execution along with inter Division Monitoring at Circle level.

Further, as per CAMPA guidelines, all the activities of previous operations carried out under CAMPA are to be monitored and evaluated by internal monitoring as well as through an independent/3rd party organization to assess the quality as well as effective utilization of funds. For Monitoring & Evaluation, a provision of **Rs.1.50 crore** has been proposed.

2.2.7. Publicity & Awareness Programmes

Each year various Forestry activities under CAMPA and other schemes are being implemented. Awareness programmes and important days are observed. Various publicity materials are also prepared to make the targeted stakeholders and general public aware about the programme. An outlay of **Rs.1.00 crore** has been proposed in APO 2025-26 for the same.

3. UTILIZATION OF INTEREST MONEY [Rule 6(a) & (b)]

As per Rule 6 (a) & (b) of CAF Rule 2018, 60% of the interest accrued on monies kept in State Fund shall be used for plantation & protection related activities & 40% towards development and management of State Authority Office, procurement of office equipment and other contingencies of State Authority. Accordingly, the following activities are proposed to be included in the present APO under above category.

3.1. INTEREST MONEY UNDER 60% ACTIVITY

3.1.1. Escalation of program cost due to revision of wage rate:

The enhancement of labour rate at different interval causes change escalation in proposed outlay for which a provision of escalation of program cost has been proposed in this APO with a Financial Out lay of **Rs 3.00 Crore**.

3.1.2. Maintenance of 18-month-old seedling:

The activities like the maintenance of 18-month-old seedling to be planted during July, 2025 (3 months) and maintenance of 18-month-old seedlings to be planted during July, 2026 (12 months) and raising of seedling during January, 2026 to be planted during July, 2027(3 months) has been proposed with financial outlay of **Rs 83.60 Crore**.

S1	Activity	Physical Target (in Nos)	Financial outlay (in Crore)
1	Maintenance of 18 months seedling to be planted during July, 2025 (3 months) raised during January 2024	1.46 Cr	12.13
2	Maintenance of 18 months seedling to be planted during July, 2026 (12 months) raised during January 2025	1.20 Cr	55.51
3	Raising of 18 months seedling to be planted during July, 2027 (3 months) to be raised during January 2026	1.20 Cr	15.96
Total			83.60

3.2. INTEREST MONEY UNDER 40 % ACTIVITY

The activities like expenditure of management of State Authority and Furnishing & Installation of Audio-Video System in the State Forest Academy have been proposed in APO 2025-26 with an outlay of **Rs.15.00 Crore** as per details given below:

Sl	Activity	Physical Target	Financial Outlay (in Crore)
1	Management of office establishment of State Authority	LS	3.00
2	Audio-Visual and Furnishing works of State Forest Academy	LS	10.00
3	Charges for consumption of internet data for field Staff and Hqrs. etc.	LS	2.00
Total 40% Interest			15.00

The following directions were given by the Chief Secretary, Odisha.

- We should have state of the art technology based systems for monitoring of the plantation activities on a GIS Platform using satellite and other data e.g. from Drone Surveys etc. and all such information should be in the public domain.
- Focus should be given for quality monitoring and evaluation of different activities of CAMPA.
- Information of all CAMPA activities are to be shared in the public domain.
- Effective Site-Specific WL Management plans are to be prepared by the officers having technical skills/ expertise/ expert agencies/ professionals to address the site specific WL issues.
- Thrust should be given for raising plantation in Urban and Industrial Areas to address pollution issues under any appropriate schemes of the Department and the nurseries should be raised in villages next to mines to give them livelihood opportunities.

After detailed discussion, the committee approved the proposed activities of APO 2025-26 with an outlay of **Rs 1078.10 Crore** for submission to National Authority, CAMPA, MoEF & CC for consideration and final Approval

The details of the proposed activities of APO 2025-26 approved by the State level Steering Committee are as follows.

Activity wise details of APO 2025-26

Act/ Rule	Activity	Unit	Physical Target	Unit cost @452	Financial outlay (Rs in Lakhs)

(viii) **Committed liability of previous year works :-**

There is no committed liabilities upto APO 2023-24. The committed liability of APO 2024-25 is yet to be received as APO activities are under progress. The same shall be submitted soon after closure of financial year.

(ix) **Details of spill-over works :-**

The following spill-over work relating different activities have been proposed in APO 2025-26 for their completion in Financial Year 2025-26.

5 (2) (a)	ANR	-	1.50 Crore	The part of expenditure could not be made i.e differential amount allowed under interest component due to short release of fund under interest head by State Government.
5 (2) (b)	AR	-	1.50 Crore	➤ Advance work taken for Mangrove Plantation, Digging of fish bone channel, and Nursery for 40 Ha. plantation, ➤ Raising of seedlings for casuarina plantation over 70 Ha.
5 (3) (e)	Construction of Office, Residencial Buildings	-	1.00 Crore	Partial construction of 02 nos. of RO Office, 03 nos. of FR Qr., 03 nos. of FG Qr.
	Total :		4.00 Crore	

x. Status of third-party Monitoring of last five years

As per the provision of the CAMPA guidelines, the State CAMPA has formulated Annual Plans of Operation (APO) for all the years since 2009-10 to till date except 2018-19. As per guideline, technical evaluation of all ongoing activities under CAMPA by a third-party evaluator was considered essential. Third party monitoring of all the CAMPA interventions since 2009-10 to 2016-17 have been completed. The detailed evaluation report has been placed in the public domain (<http://campa.odisha.gov.in>).

Similarly for the year 2017-18, 2019-20, 2020-21, 2021-22 and 2022-23 the third-party evaluation has been completed and the report is available in the CAMPA website.

For 3rd Party Monitoring of CAMPA APO 2023-24 the tendering process is under progress.

4. Five year perspective plan for utilisation of NPV fund (Basing on available fund as on 31.12.2024)

Rs. in crore

PART-I

Brief History and Past Performance

1.0 BRIEF DESCRIPTION OF FOREST & FORESTRY SECTOR IN THE STATE

1.1 Geographical Location

Odisha has 30 Districts. These 30 Districts are under eight Forest Circles to streamline forest governance. Odisha is located in the east coast. It is bounded by the States of West Bengal, Jharkhand, Chhattisgarh, Telangana and Andhra Pradesh. The modern state of Odisha was established on 1st April 1936. Odisha lies between the parallels of 17.49'N and 22.34'N latitudes, and meridians of 81.27'E and 87.29'E longitudes. The State has an area of 1,55,707 km², (8th position in area in the country) which is 4.87% of total geographical area of India, and the State has a coastline extending to 480 kms. In the eastern part of the State lies the coastal plain which extends from the Subarnarekha river in the north to

the Rushikulya river in the south. The plains are rich in fertile silt deposited by the six major rivers flowing into the Bay of Bengal: Subarnarekha, Budhabalanga, Baitarani, Brahmani, Mahanadi and Rushikulya. Three-quarters of the State is covered by mountain ranges. Deep and broad valleys have been made in them by the rivers. These valleys have fertile soil and are densely populated. Odisha also has plateaus and rolling uplands which have lower elevation than the plateaus. The highest point in the State is at Deomali (1,672 metres) in Koraput district. The State has got exquisite temples like Puri (Temple of Lord Jagannath), Konark (Black pagoda), etc.

1.2 Population

There are 12 tribal districts in Odisha. The total population of the state is 4.20 crore and the percentage of female and male are 49.5 and 50.5 respectively. The Tribal population of the State constitute 22.85% of the State's population as per the 2011 census. The 20th Livestock census 2019 has reported a total

livestock population of 6.10 crore in the state. The rural and urban population constitutes 83.32% and 16.68% respectively. The population density of the state is 270 per square kilometer, which is lower than the national average of 382 persons per square kilometer.

1.3 Climate

The State has a tropical climate, characterized by high temperature, high humidity, medium to high rainfall, and short and mild winter. The State experiences four meteorological seasons: winter (January to February), pre-monsoon season (March to May), south-west monsoon season (June to September) and north east monsoon season (October–December). However, locally the year is divided into six traditional seasons (or rutus): Grishma (summer), Barsha (rainy season), Sharata (autumn), Hemanta (dewy), Sheeta (winter season) and Basanta (spring). The entire territory lies in the

tropical zone and high temperature is recorded particularly during April-May. However, the sea exercises a moderating influence over the climate of the coastal belt whereas the hill tracts experience an extreme climate. For all practical purposes, the State experiences four major seasons: Winter (December to February), Summer (March to May), South-West Monsoon (June to September) and North-East Monsoon (October–November). The average annual rainfall varies from about 1,200 mm to 1,600 mm and the average annual temperature varies from 25°C to 28°C.

1.4 Geology & Rock

The rich mineral belts lie in the western and north-western parts of the State. Odisha topped among all the states as it contributed above 10% to total mineral production in the country viz. coal, bauxite, chromite, iron ore, limestone, manganese ore, mineral sand, nickel ore, pyrophyllite and quartz. The rich mineral wealth of the State is attributed to its

favourable geological condition & setup. The scenic waterfalls of Khandadhar, Putudi, Bareipani, Joranda etc. are glory of the State. The virgin green forests of blue hills of Eastern Ghats with rich wildlife in Similipal Tiger Reserve and Bhitarkanika National Park and other wildlife sanctuaries are exemplary.

1.5 Forest and Tree Cover in Odisha

Forest area of the State	
Total Geographical Area	1, 55,707.00 Km ²
Recorded Forest area	61,204.17 Km ²
Forest Cover within Recorded Forest Area	33,040.47 Km ²
Forest Cover outside Recorded Forest Area	19,393.09 Km ²
Forest Cover Area	52,433.56 Km ²
Tree Cover (Outside Forest Area)	6163.45 Km ²
Total Forest & Tree Cover	58,597.01 Km ²
% of Forest Area (Recorded) to Geographical Area	39.31 %
% of Forest Cover Area to Geographical Area	33.67%
% of Tree Cover Area to Geographical Area	03.96%
% of Forest & Tree Cover to Geographical Area	37.63 %

[Forest Cover map of odisha as per ISFR-2023] Moderately Dense

The Recorded Forest area of the State is 61,204.17 km² which is 39.31% to geographical area. This includes 26,873.66 km² of Reserve Forest, 9,175.15 km² of Proposed Reserve Forest, and 1,085.22 km² of Protected Forest. 287.51 km² of Village Forest, 4,179.59 km² of Demarcated Protected Forest, 4,272.91 km² of Un-Demarcated Protected Forest, 15,117.30 km² of Revenue Forest, 22.06 km² of Un-Classified Forest and 190.77 km² of Private Forest. Forest Department is in overall control of land with status of RF, PRF, PF, VF, DPF, UDPF and Unclassed Forest, to the tune of 45,896.10 km². The biennial assessment of forest cover by Forest Survey of India since the year 1987 by using Remote Sensing Technique broadly classify the forest cover into three classes i.e., Very Dense Forest,

Forest and Open Forest. As per the 2023 State of Forest Report, the present forest cover is 52,433.56 km² while tree cover

of the state is 6163.45 km². The forest cover has increased over 151.89 km² and the Tree cover has increased over 406.68 km² with a total increase of 558.57 km²

both in forest & tree cover which is the third highest in the country. As regards mangrove forests, the Odisha State has gained 1.55 km² increase with respect to

2021 report. The forest cover of Odisha constitutes 33.67% of the geographical area while very dense forest is 4.63%, moderately dense forest is 13.53% and open forest is 15.51% of geographical area respectively. The positive changes of forest & tree cover in the State is attributed to the conservation and protection measures, massive plantation activities through community participation by more than 16000 VSSs.

Status of Forest Cover as per ISFR-2023

Sl. No	Year	Very Dense	Dense	Moderately Dense	Open Forest	Total	Scrub	Tree cover	Mangrove
1	2023	7224		21066	24144	52434	4633	6163.45	259.06

1.6 Forestry sector issues and challenges

Various issues and challenges for the forest department to retain and restore the healthy eco-system over the natural forests are the following:

❖ Forest boundary demarcation in case of notified and recorded forest is an issue in the field while ensuring consolidation and protection. This needs to be addressed through appropriate survey involving the revenue department in the field.

❖ A sizable area of forest are under revenue department which are not included in forest management under

working plan prescription. Those areas are also to be properly demarcated with definite georeferencing and brought under proper forest management.

❖ To upgrade the degraded forest to the next density class massive plantation programme are being taken up by forest department with adequate protection measures and awareness programmes in the forest fringe areas. Protection measures taken up through foot patrolling inside the forests are being monitored through GPS tracking. Mostly the problems in protection and restoration of forest area are location

specific and to some extent related to cultural aspects and economic deprivation of the fringe village communities. Support of local communities through VSS is to be ensured apart from engaging the local youths in the protection to give impetus to the efforts of the frontline staff.

❖ Forest fire is a major concern. Modern technology is being utilized for advance information and control of the forest fire. The satellite based alerts act as a fruitful monitoring technology for controlling the ground fire by frontline staff. The community participation and awareness campaign are an additional result-

oriented programme to combat the fire hazard inside forest.

❖ Frequent natural calamity in the Odisha State is a regular phenomenon which affects the forest and its eco-system. Especially coastal areas are badly affected due to frequent cyclones. The mangrove and casuarina forests act like a barrier to restrict the cyclonic storm and tidal surges ensuring protection to coastal areas and its communities. Mangrove and casuarina plantations are being taken up to mitigate the above challenges. In this regard, 1.55 km² increase in mangrove forest cover in the state as per the State of Forest Report 2023 is a testimony for such efforts.

Achievement of Forest consolidation by geo referencing (DGPS survey)

Year	Notified Forest			Revenue/Deemed Forest			Total Financial Achievement (Rs. in Lakh)
	No. of Forest Block	Area in Sq. Km.	Financial Achievement (Rs. in Lakh)	No. of Tahsil	Area in Sq. Km.	Financial Achievement (Rs. in Lakh)

*upto Dec, 2024

1.7 The Human – Animal Interface

The Human – Animal interface has become a challenge all over the state. Fragmentation of habitats and depletion of food and water sources inside the forests are aggravating the problem. As a result, the loss of human life or injury, property loss and crop damage are occurring at frequent intervals and almost equivalent loss of wildlife. To address the above challenges, different

pro-active measures like deployment of elephant squads and antidepredation squads, driving away elephants by the staff from human habitats as and when required and awareness campaign in forest fringe villages are taken up. So provisions for habitat improvement with creation of sufficient water sources has been made in CAMPA and also through other programmes of the State.

1.8 Community participation and effects on forest cover

The role of forests and forestry is changing rapidly and significantly. Policy makers are placing a renewed focus on community participation for sustainable development of forest. Odisha is the pioneer State to adopt policy of JFM resolution assigning specific roles to the communities. The community protection system exists since time immemorial and the Government of Odisha passed a resolution during 1988 to involve the local communities for protection and management of the forests. Keeping pace with present scenario, the amendments during 2011, 2015 and 2019 JFM Policy for smoothening the management of forest with community involvement had been done. Community being the main stakeholder for enjoying the benefits of

forest and also in its management, community centric approach in planning and implementing forest conservation is vital. Restoration of forest cover will be fruitful by providing sustainable livelihood options to the forest fringe dwellers. The formation of VSS (Vana Surakhya Samiti) in forest fringe villages is a commendable step for better management of forest and wild life. At present, a total 16194 nos. of VSSs and 590 nos. of Eco Development Committees (in Wildlife and mangrove Areas) have been formed in different forest divisions. The above institutions are involved in all sorts of forestry activity during its implementation inside forest.

1.9 Wildlife scenario and issues in the Sector

The State of Odisha is endowed with an extremely rich and unique assemblage of Wildlife. Rich faunal diversity of Odisha exhibits 131 species of reptiles including 3 crocodilian species, 29 species of Amphibians, 537 species of birds and 114 species of mammals, this includes 54 endangered species (17 species of reptiles, 15 species of birds and 22 species of mammals) as per IUCN Red Data Book.

In the State of Odisha, the in-situ conservation is ensured by declaring the biodiversity rich areas as Protected Areas. At present Odisha has one National Park, 19 Sanctuaries, two Tiger Reserves, one Biosphere Reserve, three Elephant Reserves and six Ramsar Sites. The Wildlife Sanctuaries (19 Nos. as Protected Areas) encompass 10.37% of forest area in the State which is 5.36% of the State's Geographical area. One National Park has been notified under provision of Wildlife (Protection) Act, 1972 for in-situ conservation at Bhitarkanika and another National Park is proposed at Similipal. Odisha is also blessed with natural major wetlands at Bhitarkanika Mangroves, Anshupa Lake, Hirakud Reservoir, Satkosia Gorge, Tampara Lake and Chilika Lake having international importance, these wetlands have been declared as **"Ramsar Sites"**.

As part of ex-situ conservation, Odisha has one large Zoo, three small Zoos and six mini-Zoos which have been recognised by Central Zoo Authority and

are managed scientifically. Conservation breeding programmes of Indian Pangolin, Tigers, Mouse Deer and Vultures are in progress in Nandankanan. In order to address the issue of ailment of wildlife, all the zoos are maintaining rescue centers along with facilities for veterinary care.

Besides, there are 4 Crocodilian Research and Conservation Centers in the State, viz for Gharial in Tikarpada/Satkosia, Saltwater crocodile in Dangamal/ Bhitarkanika, Mugger in Ramtirtha/ Similipal and captive breeding programme of all three Indian crocodilian species in Nandankanan Zoological Park respectively.

Similipal-Hadgarh-Kuldiha is the traditional Elephant corridor linking rich biodiversity of Similipal, Hadgarh and Kuldiha WL Sanctuaries. The traditional corridor allows wildlife movement from one habitat to another to facilitate gene flow between different populations. For the purpose of protecting landscapes, flora, fauna and their habitats therein the State Government has declared it as **"Similipal-Hadgarh-Kuldiha Conservation Reserve"**.

As of now, 590 nos. of EDC have been formed covering an area of 43455.32 ha.

of protected area and ensuring the people's participation which plays a major role in conservation of wildlife. As an alternative source of livelihood for such villagers, community based eco-tourism is promoted. For the purpose 53 community managed Eco-tourism destinations have been developed with 340 nos. of Eco-cottages and 123 nos. of Tents for accommodating 1437 eco-tourists for night stay. Large inviolate areas are essential to ensure a viable population of the wild animals, particularly Elephants and Tigers. Such vast prime habitat like core tiger habitats etc. are created through voluntary relocation of villages from the inside Protected Area/Tiger Reserve/Other Forest Areas as per policy framed by NTCA and State Government. From 1994

to 2024, a total of 1931 nos. of families have been relocated from 28 nos. of Villages from Similipal, Satkosia, Debrigarh, Khalasuni and Hadgarh Sanctuaries. As of now about 747 villages are situated inside 13 Wildlife Sanctuaries in the State. In order to ensure step wise consolidation of prime wildlife habitats, voluntary relocation scheme of 5 years from 2021-22 to 2025-26 has already been prepared. Government of Odisha have recently enhanced the village relocation package from Rs.10 lakh to Rs.15 lakh per family and in addition Rs.5 lakh as incentive in case of non-availing of package benefits. This package is also applicable to the families willing to be relocated from the inaccessible forest areas including areas connecting wildlife habitats.

2.0 Compensatory Afforestation, Other Forestry and related Schemes (Physical & Financial) including Catchment Area Treatment, Wildlife Management & Community Development works in the State in last five years

3.0 Brief description of Monitoring and Evaluation

Different approaches and methodologies are followed for monitoring and evaluation of CAMPA works.

- 1) Conventional Monitoring Methodologies**
- 2) Monitoring using the Technology**
- 3) Fiscal Monitoring**
- 4) Third Party Evaluation**

3.1 Conventional Monitoring Methodology:

(i) The conventional approach refers to the traditional method of monitoring and evaluation is based on the mandatory provisions of the Forest Department code. Site specific indicators are gathered from different hierarchical management to assess the progress of implementation. In Forest Department, the main field executants of the projects start from the Range officer level which is the basic unit. As per the codal provision of the Forest Department, the Range officer is to monitor 100 percent of the activities in all steps of execution. The Divisional Forest officer of the concerned Division plays a key role in the internal monitoring mechanism in his/ her division and evaluation of the project. The fiscal discipline, project completion and outcome of the activities are major mandate as per the Odisha Forest Departmental Code. The Divisional Forest officer makes regular inspections, studies and analyzes the field position, and imparts directions to the frontline field staff for further improvisation. Further, all the supervisory officers through regular inspections ensure effectiveness of the field level implementation. All the field functionaries are having specific roles. As per the guidelines of CAMPA, the

Forester and Forest Guard of the respective area should monitor 100 Percent of the works executed in their jurisdiction; the Range officers being the executants review at least 75% of the activities of the project works, ACF 25%, DCF/ DFO 10%, and RCCF 5% of works to be inspected.

(ii) The PCCF & HoFF being head of the State monitors the activities either by deputing the staff at regular intervals from State headquarters and also makes random field visits for monitoring and issuing necessary instructions/ guidelines to the field as & when required. The RCCF also monitors the field activities in his jurisdiction regularly and also arranges an internal mechanism to monitor the project works and guide the sub-ordinates.

(iii) Three Flying Squad units under Forest Internal Vigilance of the State with headquarters at Cuttack, Berhampur & Sambalpur are also entrusted to monitor, evaluate and to enquire into the allegation petitions on different activities under CAMPA APOs as and when required by the PCCF & HoFF, Odisha.

3.2 Monitoring and Evaluation with the usage of Technology

(i) Technology is used in a big way for monitoring of CAMPA activities. A modern Forest IT & Geomatic Centre (FITGC) has been established with devoted IT infrastructure. This center is monitoring all forestry-related activities with the help of 9229 active Smart Phones of field officials having android & iOS based OFMS applications and 1200 GAGAN enabled GPS-PDA devices. The login status, update of application version and usage of OFMS are also monitored through the web application www.odishaforestgis.in) in order to ensure use of the application by all frontline field staff and strictly monitor all forestry related activities at each level. Updated data on activities like raising of seedlings, plantation progress, tall seedling planting, seedling distribution details etc. has been made available for

public viewing in the official website: www.odishaforest.in. To ensure Forest Protection, more attention is focussed on the foot patrolling especially during the odd hours which is also monitored through the web application <https://odishaforestgis.in>. Different incidents like illicit felling and wildlife sightings during foot patrolling apart from wildlife death/ injury and mining & quarrying inside the forests are recorded at the site. On an average 151400 Kilometers foot patrolling is done per month by all the forest staff and the distance, timing and incidence reporting are closely monitored daily/ hourly basis using GPS-PDA/Android application at all levels. Month wise foot patrolling, fire incidences, number of assets mapped are monitored.

(Foot patrolling done through the boundary of forest block to check boundary pillars)

(ii) **Realtime Monitoring of Forest Fire** Satellite based remote sensing technology and GIS tools have been effective in better prevention and management of fires through creation of early warning for fire prone areas, monitoring fires on real time basis and estimation of burnt areas. The forest fire monitoring is done in a unique way by

integrating the FITGC server with FSI server to fetch the fire data directly in the fire application from FSI server. The server is also accessing the fire data of NRSC for timely information of Forest fire locations. In addition to this, the application having navigation facility helps the ground staff to navigate and quickly reach the fire spot thereby

substantially reducing the time to respond. The Forest HQ has a dedicated fire cell which monitors fire on 24X7

basis and the damage due to fire is substantially reduced. The details of Fire monitoring in last 5 Years is give under:

Sl	Components /Year	2020	2021	2022	2023	2024
1	Number of fire incidences (Nos)	11813	56606	28755	36713	22868
2	Fire Response (%)	45%	80%	92%	99%	99.86%
3	Forest area affected (Ha)	6146.61	28329.05	8414.55	9550.86	4067.05

Screen display of fire app showing the auto fetching fire poits from FSI server, navigating to the fire spot, responding through App. and syncing to the server for monitoring.)

Fire Points received from FSI downloaded in Mobile App shown in Orange/ Repeat Fire Points in Pink

Fire Points received from FSI responded by Forest Staffs in field using Mobile Application shown in

(iii) **Plantation Monitoring** The “forest cover change map” at beat level has helped the field staff for better planning of plantation and plantation related activities such as SMC, ANR etc. FCD module has been developed in OFMS Android App i.e., “Afforestation Land Selection System”. This application helps for selection of new Afforestation sites by the field staff using recent Forest Canopy Density during verification in Android App. All assets like nurseries, Compensatory Afforestation (CA) & Non-CA Plantations, water bodies, buildings

etc. are dynamically monitored using asset mapper application and all attributes of the assets such as Geo-tagged photographs, schemes, year of project etc. are recorded. About 33874 different assets are mapped in the field during the period from January 2022 to December, 2024. Out of Which 7349 Nursery sites & 14669 afforestation sites and 11856 other assets are monitored regularly through mobile/web applications. A few images given below are used for monitoring purpose.

(Monitoring of different works in different years)

(iv) **KYFL@Odisha (Know Your Forest Location in Odisha).**

The KYFL@Odisha application has been developed where, one user can get the geo-location of the point of interest (PoI), name & approximate distance from the nearest notified forest block and details of forest administrative jurisdiction. The

application also provides the additional land revenue information like name of the district, Tahasil, CD Block, GP, Village, Khata No., Plot No., owner's name, land type & area in hectare with respect to PoI. About 1,00,000 users have downloaded the application.

(v) **Mo Jungle (My Odisha Forest)**

Further one new Application named “**Mo Jungle: My Odisha Forest App**” has been developed for public assistance. All plantation assets which have been created are brought under public domain through web application (www.odishaforest.in) and mobile application Mo Jungle: My Odisha Forest in iOS and Android to bring transparency in afforestation activity. All 14669 number of plantations assets created during the period from January, 2022 to

December, 2024 are available for public access and they can give their feedback on any plantation site. About 1000 users have downloaded the application.

(vi) **Forest Fire Monitor Module for citizens,** on our freely downloadable “Mo Jungle” Mobile App, both in Android & iOS.

It has a special feature of district-wise filter of forest fire on Google Map. Citizens can give feedback using this App.

3.3 Fiscal Monitoring

The fiscal discipline is ensured through transaction in the IFMS portal, submission of online accounts to Accountant General, making direct benefit transfer using either IFMS platform or other mechanism and ensure the payments are sent directly to the bank accounts of the beneficiaries. The efforts are to increase the transparency in the financial transactions. Detailed guidelines are issued from State Authority for following Integrated Financial Management System, wherein there is no handling of cash and all the payments to the people working in

various forestry operations are done online. The CAMPA money is released in four installments. The funds for maintenance for plantation are released after getting a report on the survival percentage of plantation sites from the DFOs.

Internal auditors have been appointed to monitor the procurement procedures, submission of accounts and proper expenditure of campa funds. These auditors give a half yearly report to improve the efficiency in financial transactions at implementing level.

3.4 Third Party Monitoring

As per the provision of the CAMPA guidelines, the state CAMPA has been formulating the Annual Plans of Operation (APO) for all the years since 2009-10 to till date except 2018-19. As per guideline, technical evaluation of all ongoing activities under CAMPA by a Third-Party evaluator was considered essential. M/s CTRAN Consulting Ltd was appointed to carry out third party monitoring of all the CAMPA interventions since 2009-10 to 2016-17. The activities taken up out of CAMPA fund comprises Comensatory afforestation and plantation, SMC measures, forest protection, wildlife management, Ama Jungle Yojana, sacred groves, research & development, capacity building, infrastructure development, forest IT etc under NPV and activities taken up under Interest are also evaluated by the agency. The evaluation study comprises 56 forest

divisions (37 Territorial, 13 Wildlife, 02 Silviculture Divisions and 04 Training Institutes) in addition to Nandankanan Zoo where CAMPA funds are utilized. The study approach and methodology for various CAMPA interventions were evaluated using multiple data analysis approach and sampling criteria. M/s CTRAN has reflected satisfactory report on monitoring and evaluation for the aforesaid years. The detailed evaluation report has been placed in the public domain (<https://odishaforest.in>).

For the year 2017-18, 2019-20 and 2020-21 was under taken by M/S Price Water Cooper Private Limited (PWC Pvt. Ltd.) as per the provision of CAMPA Act and Rules. The PWC Pvt. Ltd. has submitted the report on evaluation of interventions of CAMPA activities like AR, ANR, Afforestation of Bald Hills, Avenue Plantations, Compensatory Afforestation works, Subsidiary

Silvicultural Operations of Bamboo, Soil and Moisture Conservation Measures, Forest Protection and Forest Fire Protection activities, Wildlife Management, Infrastructure Development, Research, Capacity Building and forest IT etc.

The Third-party evaluation of APO 2021-22 was completed and report submitted by M/S Ernst & Young LLP. For APO 2022-23 M/S Agricultural Finance Corporation Limited (AFC) has

completed the Third-Party Evaluation and submitted his reports.

Further CAG Empanelled CA Firms have been engaged to take up Financial Statement to ensure transparency and Accountability. CA Firms have prepared the Financial Statements upto 2017-18 and the same has been placed before the AG, Odisha for Audit.

PART-II

Activities to be undertaken for Compensatory Afforestation, Additional Compensatory Afforestation, Penal Compensatory Afforestation, Catchment Area Treatment Plan & for any other site-specific schemes submitted by the state along with approved proposals for diversion under Forest (conservation) Act, 1980. referred to in clause (a) of Section 6, of the CAF Act, 2016.

COMPENSATORY AFFORESTATION

Compensatory Afforestation is one of the most important conditions stipulated by the Central Government while approving proposals for dereservation or diversion of forest land for non-forestry use as per Forest Conservation Act 1980. It is essential that with all such proposals, a comprehensive scheme for Compensatory Afforestation is formulated and submitted to Central Government. In compliance to the order of Supreme Court Compensatory Afforestation Management and Planning Authority (CAMPA) is constituted.

In consonance with the Forest (Conservation) Act 1980, and the Rules and Guidelines there under, the Compensatory Afforestation fund from user agencies are collected and deposited in CAMPA account. Additional conditions are also imposed in certain cases considering the project status.

Implementation of the approved site-specific schemes of Compensatory Afforestation (CA), Penal Compensatory Afforestation (PCA), Catchment Area Treatment Plan (CATP), Ancillary Activities etc. along with the forest diversion proposals are the first charge of CAMPA fund and included in the APO as referred to in clause (a) of Section 6, of the CAF Act, 2016.

The total forest area diverted in the State under Forest (Conservation) Act 1980 up to September 2024 is 68106.190 ha. In lieu of diverted forest land MoEF & CC has stipulated Compensatory Afforestation over 95848.231 ha upto Sep. 2024. The Compensatory Afforestation over 79264.744 ha has already been undertaken till completion of APO 2024-25. An area of **6371.148 ha** has been included in current APO 2025-26.

Sl. NO.	Area Category	Area in Ha
1.	The total area diverted upto September 2024	68106.190 Ha
2	Stipulation of Comp. Affn. Upto September 2024	95848.231 Ha
3.	Achievement upto September 2024	79264.744 Ha
4.	Balance Area to be covered	16583.487 Ha
5.	Proposed area for Comp. Affn. in APO 2025-26	6371.148 Ha

1. COMPENSATORY AFFORESTATION DETAILS:

1.1 Current Year Activities

The prime mandate of CAMPA is to fulfill the targets of Compensatory Afforestation plantation programme. Various models of plantation activities proposed under CA, PCA, Addl. CA in APO 2025-26, Block Plantation 824.856 ha, ANR With Gap 6066.869 Ha, ANR Without Gap 30.525 ha, Tall tree plantation of 9575 numbers and Canal Bank/ Avenue Plantation over 18.998 RKM. To achieve the targets of APO 2025-26 a financial outlay of Rs 18715.22 Lakh has been provisioned including ancillary activities for above CA, PCA, etc. and maintenance of old plantation.

Ancillary activities are fencing, SMC measures, training and EPA activities will be carried out as per site specific scheme approved as part of de-reservation proposal for approval by MoEF & CC. Further, the maintenance of the previous year plantations and the pre-planting operation of plantation to be taken up during 2026-27 have been included in the APO 2025-26. The total outlay for CA, PCA, Backlog CA, leftover CA, CATP other Stipulations etc. abstract of the current year afforestation activities and the division wise details are given in the Table 1.1.1. The Division wise and location wise details of CA, PCA afforestation and year wise maintenance are given in **Annexure II-I**

Table 1.1.1 Abstract of the current year CA, PCA afforestation activities to be carried out in 2025-26

1.2 Maintenance of Previous year's Plantations Under CA/PCA:

The maintenance of old plantations is quite necessary for the success of plantation programme. Maintenance of the previous APO plantations under CA/PCA are given in the following Table 1.2.1

Table 1.2.1 Division wise details of Maintenance of Old Plantations under CA/PCA etc

Projected Requirement of Funds for Compensatory Afforestation for APO 2025-26

2. INTEGRATED WILDLIFE MANAGEMENT PLAN

The integrated wildlife management plan has been formulated by the PCCF WL & CWLW, Odisha at the time of diversion of forest land for non-forestry purposes with a view to mitigate local and regional wildlife issues such as habitat loss and degradation, fragmentation of habitats, spread of exotic flora and fauna species, biotic

interference, animal corridor issues, human Wildlife conflicts etc. Wildlife management plan is essentially integrated with the management plans for Protected Areas and need based interventions for other wildlife rich areas including wildlife corridors and attempts to minimize man animal conflicts.

The components of integrated wildlife management plan consist of

- A. Regional Wildlife Management Plan (Rs. 77.00Cr.)
- B. Site specific Wildlife Conservation Plan (Rs. 143.53 Cr.)

A. Regional Wildlife Management Plan

For diversion of forest land for mining projects, State Government stipulates for realisation of cost towards implementation of Regional Wildlife Management Plan in the impact areas as well as its periphery. The State Govt. has fixed the cost norm for realisation of cost towards implementation of Regional Wildlife Management Plan.

The following is the cost norm which is revised from time to time based on the revision of minimum wage rate by State Government for implementation of, Regional Wildlife Management Plan as detailed below

Min. Wage Rate	Cost norm per ha	Effective from	Govt. letter No. & date
Rs.55/-	Rs.15,000/-	Up to 22.03.2008	22295/F&E dt 30.12.2005
Rs.70/-	Rs.20,000/-	23.03.2008 to 12.07.2009	6495/F&E dt 23.03.2008
Rs.90/-	Rs.26,000/-	13.07.2009 to 05.10.2012	27209/F&E dt 31.12.2013
Rs.150/-	Rs.43,000/-	06.10.2012 to 04.12.2016	20693/F&E dt 05.10.2013
Rs.200/-	Rs.58,000/-	05.12.2016 to 29.10.2018	22675/F&E dt 05.12.2016
Rs.280/-	Rs.82,000/-	30.10.2018 31.03.2019	26159/F&E dt 05.12.2018
Rs.450/-	Rs.1,31,800/-	15.03.2024	10992/FE&CC dt 26.06.2024

Government of Odisha in Forest, Environment & Climate Change Department have approved the proposal for preparation of a comprehensive Wildlife Management Guidance (OSCOW-MAG) for the whole State vide letter No.8F-(S)-50/2014-15814/ F&E dated 27.08.2014 and the MOU was signed between the Forest Department, Government of Odisha and WTI on dated 11.12.2015 at a cost outlay of Rs.3.65 Crores. WTI have submitted the final plan and provision for Rs.9500.00 lakhs was made in CAMPA APO: 2024-25 towards its implementation. This year

Rs.7700.00 lakh is being proposed for its implementation in 19 specific areas namely, Species Specific Management Programme, Eco-restoration Programme, Ex-situ In-situ Integration Programme, Capacity Enhancement, Human Wildlife Conflict Management, Wildlife Protection Enforcement, Trans Boundary Wildlife Management & Co-ordination and Education and Awareness.

The details of the sites for afforesaid interventions will be prioritised as per the guidelines stated and funds approved.

B-Implementation of Site-Specific Wildlife Conservation Plan

This component is the first charge under CAMPA APO which the user agency deposits as per the plan approved by PCCF (WL) & CWLW, Odisha in compliance to either the stipulation raised in stage-I order of the forest clearance under Forest Conservation Act, 1980 or as ToR conditions under Environmental Protection Act, 1986 or both.

Apart from utilising the funds for those SSWLCP which have received final Forest/Environmental clearance and requisitioned by the DFOs, this APO also proposes to utilise funds of those SSWLCP of linear projects which have received stage-I forest clearance or initial environmental clearance and have deposited the entire amount.

Reason for picking up implementation of SSWLCP of stage-I approved liner project is that these are one time project that normally get completed before even submission of compliance to stage-I order. Further the adverse impact of

such projects are not localised and span over long stretches for which ameliorative measures become crucial to ensure safety, wellbeing and unhindered movement of the wildlife inhabiting those affected landscapes.

Since, APO: 2011-12, the site-specific wildlife conservation plans are being implemented. Up to APO: 2023-24 an amount of Rs.25474.77 lakh have been utilized and in APO: 2024-25 **Rs.16410.00 lakhs** has been approved. A provision of **Rs.14353.00 lakh** has been made in the APO: 2025-26.

It is proposed to implement 42 nos of new Site-Specific Plans in addition to 230 nos of running Site-Specific Plans of previous years covering 39 Divisions in this plan. It is clarified here that some of the SSWLCPs are being implemented in more than one division due to which the total number of running projects comes to 272 nos with a cost outlay of **Rs.14353.00 lakh** for which provisions of funds have been made under APO 2025-26.

Division wise details of Site-Specific Wildlife Conservation Plan.

PART-III

**Activities to be undertaken from Net Present Value (NPV)
referred to Rule 5(2) & 5(3) of CAF Rules, 2018**

PART -III

A forest ecosystem is a complex and interconnected system where living organisms interact with each other and their physical environment. Forests cover a significant portion of the Earth's land area and play a crucial role in maintaining ecological balance, supporting biodiversity, and providing various ecosystem services.

The Forest, Environment and Climate Change Department is actively looking into the conservation and development of Biodiversity and Ecosystems in the State. The department is mandated to manage, conserve and protect forest and wildlife resources in the State through afforestation and regeneration of degraded forest lands, forest protection as well as socio-economic up-liftment of people in the forest fringe areas and sustainable management of forests and wildlife.

Massive plantation programme is assigned under CAMPA to enhance the green cover with afforestation programme of naturally regenerated forest with silvicultural operations, SMC activities & plantation in gap & Block plantation model accommodating site specific species.

In APO 2025-26, emphasis given on raising different models of ANR plantation @500 plants /Ha and @200 Plants/Ha with all indigenous miscellaneous species/RET Species in consonance with prevailing Working Plan /Working Scheme. In case of AR different models of plantation, both 1600 plants/Ha & 1000 plants/Ha has been incorporated in this APO considering availability of area, site condition and prevailing Working Plan /Working Scheme

9. Capacity Building
10. Upgradation of Geo-ICT Facilities
11. Infrastructure Development
12. Casual Engagement of local Youth
13. Survey & mapping for CA Land Bank
14. Monitoring & Evaluation
15. Publicity awareness
16. Activities under Wildlife Management

A. ACTIVITIES UNDER 80% NPV CATEGORY

1. New plantation:

The primary assignment of CAMPA is to enhance the green cover in the forest floor by raising massive plantation programme through various site-specific models in consonance with prevailing Working Plan/Working Scheme and

Wildlife Management Plan. Considering the feasibility of the site, species and soil condition, need of the society and wildlife, different models of plantation have been proposed in APO 2025-26.

1.1 Aided Natural Regeneration (ANR)

Aided Natural Regeneration (ANR) is a forest restoration and conservation approach that relies on facilitating the recovery of natural ecosystems by providing assistance or intervention to the natural processes of forest regeneration. This technique is particularly applicable in areas where the natural regeneration of forests is

hindered or has been disrupted due to human activities such as logging, agriculture, or other forms of land use

Aided Natural Regeneration (ANR) is a simple, low-cost forest restoration method that can effectively convert degraded vegetation to more productive forests. The method aims to accelerate,

rather than replace, natural succession processes by removing or reducing barriers to natural forest regeneration such as soil degradation, competition with weedy species, and recurring disturbances (e.g., fire, grazing, and wood smuggling). Compared to conventional reforestation methods involving planting of tree seedlings, ANR offers significant cost advantages because it reduces or eliminates the costs associated with propagating, raising, and planting seedlings. It is most effectively utilized at the landscape level in restoring the protective functions of forests such as watershed protection and soil conservation. ANR techniques are flexible and allow for the integration of various values such as timber production, biodiversity recovery, and

cultivation of crops, fruit trees, and non-timber forest products in the restored forest. The natural forest blocks which are included in rehabilitation working circle as per working plan prescription are taken for ANR interventions. It is aimed to strengthen the resilience of natural forest. Different model of ANR activity has been proposed considering various aspects of forest rejuvenation and site suitability.

In APO 2025-26 plan period ANR activities in different models are proposed in consonance with the CAF Rule 5(2)(a) over an area of **18,285 Ha** with a total financial outlay of **Rs. 7,804.73 Lakh**. The different models of ANR are furnished below with Division wise physical target and financial outlay.

1.1.1 Vanya Silk Plantation @500 plants /Ha

The State government has decided to implement '**Vanya Silk**' programme for providing livelihood to forest dwellers through tassar sericulture activities. A

tripartite MoU was signed between the departments of Handlooms and Forest, with Central Silk Board of Ministry of Textiles. It was signed by CEO, State

CAMPA, on behalf of Forest department, the partnership will pave the way for implementation of Vanya (wild or non-mulberry) silk includes tassar, eri and muga silks. Odisha is one of the largest tassar growing States in the country after Bihar, Jharkhand, MP and Chhattisgarh. New and increasing opportunities for providing forest-based services and products, growing business and revenue as well as creating jobs are arising from these interventions. The livelihood creation for the members of Vana Surakhya Samitis (VSS) by adopting sericulture farming is giving a wider scope for sustainable development, women empowerment along with employment generation through Mission

Shakti WSHGs to the concerned VSS. Tassar worm rearing, cocoon production will be taken up by the Forest department through VSS. The sericulture wing of Handlooms department will provide the technical support for tassar favoring host tree plantation programme. Therefore, plantation of Asana, Arjun etc. in gaps in suitable degraded forest patches have been considered in this APO 2025-26. An area of **125 Ha** in ANR mode @500 plants /Ha has been proposed in different Divisions with financial outlay of **Rs.58.66 Lakh**. The detailed division wise target are furnished below in table 1.1.1 and site wise details are placed in Annexure III-I.

Table 1.1.1 Division wise Target of ANR Gap Vanya Silk Plantation @500 Plants per Ha @Rs 0.46924 Lakh Per Ha)

1.1.2 Fodder & Fruit Plantation @500 plants /Ha.

Forests play a crucial role in maintaining ecological balance, supporting biodiversity, and providing resources for local communities. To enhance the sustainability of forest ecosystems, an integrated approach involving the

establishment of fodder and fruit plantations can be implemented. This initiative not only promotes biodiversity but also addresses the needs of wildlife and local communities, contributing to the overall health of the forest.

Foods from trees/shrubs in dry lands constitute an important component of food supply in the form of fruits, seeds and other edible parts which are essential for food security. Indigenous trees/shrubs are good source of fodder as grasses dry out quickly due to short rainy season. The domestication of important indigenous trees/shrubs (fruits and fodder species) and their integration in agroforestry practices have been one of the most important forms of biodiversity conservation. The selection, retention or deliberate planting and management of trees by farmers can be considered as the beginning of the domestication process of the species. The species diversity (richness and evenness) was estimated using different biodiversity indices. The results showed that forest sites have the highest fruit and fodder tree/shrub species diversity as compared to other land uses which suggest that domestication process of fruit and

fodder trees have been slowed down with focus on only few trees.

It plays a key role in providing food to both wild and domestic animals as well as cater the needs of local poor. The major aspect of such plantation helps in wildlife conservation, reduce the man animal conflict and enhance green coverage. It is proposed to carry out fodder and fruit bearing species plantation in the gaps of forest areas, especially where there is much more interface between the wildlife and humans. This is also one of the major assignments of Government of India. Considering the above aspects, an area of **2,113 Ha** has been proposed in different divisions with a financial outlay of **Rs.991.51 Lakh** in APO 2025-26. The detailed division-wise targets are furnished below in table 1.1.2 and site wise details are placed in **Annexure III-II**.

1.1.3 RET /Medicinal Plantation @ 200 plants /Ha.

Establishing plantations for rare, endangered, and threatened species requires a holistic approach that involves the collaboration of various stakeholders, including local communities, Government agencies and conservation organizations. Such initiatives contribute significantly to the

conservation of biodiversity and the restoration of ecosystems in threatened areas.

Present rapid socio-economic changes and several years of unscientific collection of the valuable medicinal plant species have resulted in the depletion of

their populations and habitats in nature. Many of them have become rare and endangered and some species are on the verge of extinction. Increasing human population over the last decades has also led to over-exploitation of natural resources. However, there are few pockets where these herbs still thrive and are reasonably abundant. Many plant species have still not been categorized and placed properly. Now the time has come to rejuvenate the stock of rare endangered and medicinal plant for successful use and management of forest. CAMPA, Odisha has initiated

effective steps to raise RET/Medicinal plantation in suitable sites in different Divisions. Hence to increase their population in ANR gap plantation mode @200 plants /ha has been proposed in this APO 2025-26. Therefore **4015 ha.** area has been identified in different forest Divisions of the State to conserve RET/Medicinal species. An outlay of **Rs.1,108.66 Lakh** has been proposed for this purpose. The details of division wise target are furnished in the following Table 1.1.3 and the site wise details are given in the **Annexure III-III.**

1.1.4 ANR Plantation of Other Indigenous Miscellaneous Species @500 Plants/Ha.

In a significant move towards sustainable forestry, the forests of Odisha are witnessing the implementation of an Aided Natural Regeneration (ANR) initiative aimed at fostering the growth of diverse indigenous miscellaneous species. This strategic intervention seeks to harness the natural regenerative capacities of the ecosystem, supporting a rich tapestry of native flora and promoting ecological resilience.

Forests are considered as most endangered due to deforestation, degradation, fragmentation, shifting cultivation and other types of anthropogenic disturbances. Primarily, natural forests support higher levels of native species richness and abundance than plantation forests. Plantation forests can perform like natural forests if they are composed of locally occurring native tree species. Native species plantations may create better canopy cover and soil chemistry conditions that favours the native species than the colonized exotic species. Biodiversity in the plantation forests can be enhanced through (1) conserving remnant native trees, snags, and cavity trees during

harvest (2) planting long rotational tree species (3) utilizing native species over exotics and polycultures over monocultures (4) avoiding intensive site preparation and (5) thinning some plantations heavily and others not to maintain a mosaic of open to non-open areas to encourage native species colonization. ANR offers significant cost advantages because it reduces the costs associated with propagating, raising, and planting seedlings in gaps @500 plants of indigenous species as per site condition per hectare. It is most effectively utilized at the landscape level in restoring the protective functions of forests such as watershed protection and soil conservation. ANR techniques are flexible and allow for the integration of various values such as timber production, biodiversity recovery, and cultivation of crops, fruit trees, and non-timber forest products in the restored forest. Considering the above aspects, an area of **12,032 Ha.** has been proposed in APO 2024-25 in forest area of different divisions with financial outlay of **Rs.5,645.90 Lakh.** The detailed division wise target are furnished below in table 1.1.4 and site wise detailed are placed in Annexure III-IV.

Table 1.1.4 Division wise target of ANR Plantation of Other Indigenous Miscellaneous species @ 500 plants per Ha. (@ Rs Lakh /Ha.)

1.2 Artificial Regeneration (Block Plantation)

In a strategic move towards afforestation and ecosystem restoration, the Compensatory Afforestation Fund Management and Planning Authority (CAMPA) in Odisha has spearheaded an Artificial Regeneration (Block Plantation) initiative. This visionary proposal aims to enhance forest cover, biodiversity, and ecological resilience by employing scientific techniques for tree plantation in designated Forest blocks across the State.

The Forest Block allotted to Plantation Working Circle are in various stages of degradation due to biotic factors, repeated fire hazards, grazing and encroachment. Artificial regeneration

serves to increase the relative sustainability of forest ecosystem and also to rejuvenate the natural forest where the vegetation has been lost and gaps so created due to various factors. To make the greenery in the gaps inside forest, the block plantations (AR Mode) has been proposed to be undertaken considering feasibility of different aspects. Different models of AR plantation has been proposed considering the assessment of field situation by the executive agency. An area of **1,215.50 Ha** in different AR mode has been proposed with financial outlay of **Rs. 2,503.18 Lakh** in APO 2025-26. The diiferent AR models are detailed below.

1.3 Economic Plantation @1600 Plants per Ha.

In an effort to promote sustainable forestry practices and harness the economic species, the forest authorities in Odisha have launched an Economic Plantation initiative. This project focuses on the cultivation of economic species with the aim of fostering ecological balance, supporting local economies, and meeting the demand for timber sustainability.

The condition of growing stock in the forests is being consistently improving through CAMPA by raising block plantation with economically indigenous

species in suitable pocket of prescribed plantation working circle areas. In this model of AR plantation, species having high economic value, endangered, and high genetic biodiversity values are proposed. Most of species are indigenous and suitable to the local site conditions. An area of **25 Ha @ 1600 plants per Ha** has been proposed in APO 2025-26 with financial outlay of **Rs. 37.14 Lakh**. The detailed division wise target are furnished below in table 1.2.1 and site wise details are placed in Annexure III-V.

Table 1.2.1 AR Plantation Economic @1600 plants/Ha. (AR MODE) (Rs.1485750/Ha.)

Circle	Division	Area (Ha)	Financial Outlay (Rs in Lakh)
Angul	Cuttack	25	37.14
	Grand Total-	25	37.14

1.3.1 AR Indigenous Species Plantation @1600 Plants per Ha

In a bold step towards enhancing forest cover and biodiversity, the Compensatory Afforestation Fund Management and Planning Authority (CAMPA) has launched an ambitious Afforestation initiative. This program focuses on the plantation of indigenous species at a density of 1600 plants per hectare, aiming to restore ecosystems, mitigate climate change and support sustainable resource management.

Due to various biotic, anthropogenic and unsystematic management of forest some indigenous species are in endangered condition. It has become essential to conserve the indigenous species to safeguard the biodiversity. Considering the availability of gaps in the forest floor, site condition conducive to indigenous

species, in this APO 2025-26, the plantation programme of indigenous species under AR mode @1600 plants per ha over **334.50 ha** has been proposed with a financial outlay of **Rs.496.98 Lakh**.

The details of division wise target and financial outlay with cost norm are given in the following Table 1.2.2. The location wise details are annexed in Annexure III-VI.

Table 1.2.2 Division wise target of AR Indigenous Species Plantation 1600 plant @Rs.1.485750/Ha

1.3.2 AR Indigenous species Plantation @ 1000 Plantas per Ha.

Considering the site condition and gaps available inside forest, the mode of indigenous plantation with 1000 plants per hectare are identified and accordingly proposed for plantation. In this APO 2025-26, the plantation programme on artificial regeneration mode @1000 plants per ha over an area of **238 ha** has been proposed

for creation with a financial outlay of **Rs.271.29 Lakh.**

The details of division-wise target and financial outlay with cost norm are given in the following Table 1.2.3. The location wise details are annexed in **Annexure III-VII.**

Table 1.2.3 Division wise target of AR Indigenous Species Plantation@1000 plants per Ha (@Rs 1.139860 lakhs/ Ha)

1.3.3 River Rejuvenation Plantation @1600 Plants per Ha

The river embankment and river catchment are the most suitable place for plantation programme which is an effective initiative by forest department under CAMPA. It will maintain perennial water flow and will recharge the ground water and ultimately recharges the river through small tributaries. Forest is the lifeline of river. Hence, in this APO 2025-26 an ideal model has been proposed to

make plantations on river bank as well as in its catchment to rejuvenate. For the above purpose, during this APO 2025-26, an area of **28 Ha** has been proposed with a financial outlay of **Rs 41.60 Lakh.** The details of division wise target and financial outlay with cost norm are given in the following Table 1.2.4 The location wise details are annexed in Annexure III – VIII.

Table 1.2.4 Division wise target of AR River Rejuvenation Plantation @1600 plants per Ha (@Rs. 1.48575 Lakhs per Ha)

Circle	Division	Area (Ha)	Financial Outlay (Rs in Lakh)

1.3.4 Bald Hill plantation @ 1600 Plants Per Ha.

The name Bald hill itself denotes the status of vegetative growth of the forest. Various anthropogenic factors and acute biotic interference have caused the loss of vegetation and soil erosion of the site. The loss of soil depth is resulted due to absence of root stocks in the locality. The CAMPA has taken successful steps to embark on massive bald hill plantations by adopting special techniques like foreign soil infusion, intensive soil and moisture conservation and three-tier fencing along boundaries as protective

measures. Due to effective steps in various Divisions, the naked bald hills have restored greenery within short period due to successful plantation programmes. In this APO 2025-26, Bald hill plantation programme over an area of **480 ha** @1600 plants per ha with financial outlay of **Rs. 1,335.17 Lakh.** has been proposed. The details of division wise physical target and financial outlays are given in the following Table-1.2.5 and the location wise details have been reflected in Annexure III-IX.

Table 1.2.5 Division wise target of Bald Hill Plantation@1600 plants per Ha (@Rs 2.78161 Lakhs Per Ha)

1.3.5 Casuarina Plantation (in protected areas only) @2500 plants per Ha

Casuarinas are a versatile group of plants with wide-ranging adaptability to grow in different environments and provide multiple end uses and services. Casuarina thrives well in areas having an annual rainfall ranging from 250 to 2,500 mm, maximum temperature as high as 48°C and tolerates cold up to 0°C. It is a light demanding tree and grows in almost all types of soil and is highly tolerant to soil salinity and having the ability to fix atmospheric nitrogen through a symbiotic association with the actinomycetes microorganism. The soil on which it can thrive includes coastal sand, shifting sterile sand, river alluvium, and sandy loam with highwater table, red loam, red gravelly loam and hard laterite etc. The species *C. equisetifolia* is often planted as a windbreak. In addition to their wind firmness, Casuarinas have desirable characteristics for shelterbelts,

adaptability to many soils and climates, self-sufficiency for nitrogen, rapid growth, adequate height and longevity, dense crown and useful wood. The prime objective of casuarina plantation is for Erosion Control and Sand Dune Stabilization. In Odisha there is a long stretch coastline of 480 kms which needs shelterbelt plantation to create a barrier to cyclones. Casuarina plantations are raised along the coastal belt to ensure higher production of biomass. Considering the above facts, Casuarina plantation model has been incorporated in APO 2025-26 in different feasible Divisions over an area of **70 Ha** with financial layout of **Rs 157.24 Lakh**. The details of division-wise physical target and financial outlays are given in the following Table 1.2.6 and the location wise details have been reflected in **Annexure III-X**

Table 1.2.6 Division wise target of Casuarina Plantations @2500 plants per Ha (@Rs 2.24634 Lakhs Per Ha)

	Grand Total	70	157.24

1.3.6 Mangrove Plantation (seedling origin) @ 2500 plants/Ha including Fishbone Chanel

Odisha has a long coastline of 480 kms. These areas are the regions of rich biological diversity. In fact, on the inter-tidal zone, mangrove vegetation is found which provide large-scale food and good habitat for marine life. Restocking of old mangrove areas and afforestation of the new inter tidal mud flats would offer excellent nesting, roosting and breeding sites for aquatic birds. The high biological activity associated with mangroves is also responsible for food provided for the hundreds of thousands of migrant birds that visit our region for wintering. Ramifying root systems of mangrove act as effective silt traps and the filtering action prevents the silt from getting deposited on coral formations. Thus, mangrove

ecosystem would improve the ecology as well as economic development of the area. They are of immense value for the growth of estuarine fisheries and allied occupations. The herding cattle find good fodder in mangrove particularly during scarcity periods.

Considering above facts mangrove plantation of seedlings of Mangrove species @2500 plants/Ha in suitable coastal Divisions over an area of **40 Ha** with financial outlay of **Rs.163.75 Lakh** has been proposed in this APO 2025-26. The details of division wise physical target and financial outlays are given in the following Table- 1.2.7 and the location wise details have been reflected in Annexure III-XI

Table 1.2.7 Division wise target of Mangrove Plantation @ 2500 seedlings per Ha (@ Rs. 4.09381 Lakhs Per Ha)

2. Maintenance of Plantations

Maintenance of plantation is the key intervention of plantation programme for its success. Once a plantation is raised, silvicultural treatments are basically needed to promote the conditions that are favourable to the survival and subsequent growth. All the silvicultural operations envisaged in the plantation programme for the maintenance years are to be

carefully implemented. For the success of the plantation of various models, different silvicultural operations have been provisioned in cost norm statement. The CAMPA Odisha gives priority for the maintenance activity of plantation programmes during subsequent years which has been briefed in the maintenance years.

2.1 2nd Year Maintenance

2.1.1 2nd year maintenance of ANR Vanya Silk Plantation @500 Plants/Ha

In ANR mode of Vanya Silk plantation, for its better growth, an area of **190 ha** with total financial outlay of **Rs 25.56 Lakh** has been provisioned for 2nd year

maintenance work during APO 2025-26. The division wise details are given in the following Table 2.1.1 and the location wise details are furnished in the **Annexure III-XII**.

3. Silvicultural Operations

4. Subsidiary Silvicultural Operations of Bamboo

Among the major economic forest products, Bamboo occupies the prime slot. Bamboo is a versatile plantation species and its afforestation is ecologically sound and economically viable. It is also adopted by farmers as agro forestry species, planted along field bunds and in concentrated blocks. It has great demand both in domestic and industrial sectors. The Silviculture system adopted is “culm selection system”, combined with cleaning and tending operations. Clump is the unit of management. Mature culms will be extracted by selection method depending upon the total number of mature culms and the productive capacity of the clumps. The main objective is to ensure maximum production without impairing the vigor of the clump and to protect bamboo to ensure sustained growth and

productivity. In Odisha bamboo forests are worked out as per working plan prescription of the concerned Divisions.

In the bamboo clumps, treatment involves activities such as cutting back of high stumps, cutting and removal of diseased and dead culms and removal of inflammable material to reduce fire hazard, earth mounding to the base of the clump with soil scooped out from uphill side after stacking of boulders on the downhill side.

It is proposed to take up **45000 ha** of bamboo silvicultural operations under APO 2025-26 as per the Working Plan prescriptions. The total financial outlay for Bamboo SSO is **Rs.1627.20 Lakh**. The division wise physical and financial target are detailed in **Table 3.1**

5. Protection of Forests

The Forests are prone to various types of damage such as fire, grazing, illicit tree cutting, encroachments on lands etc. To protect the forest area from such damage, protection infrastructure needs to be strengthened. The forests are highly susceptible to forest fires which may be caused due to natural or man-made cases. The fire incidences, if not controlled

within the shortest possible time, cause irreversible damage in terms of properties and destruction of wildlife and biodiversity. The scheme envisages various measures to control forest fires. Under this scheme, protection measures such as equipping and supporting forest force & fire fighting are the major thrust areas.

5.1 Protection of forest through consolidation by geo-referencing of notified forest block.

Demarcation of forest boundaries is integral to the forest management in ensuring protection of the integrity of the forest blocks. Utilizing latest technology, Geo-referencing of the forest block boundaries is crucial to make any interpretation based on aerial and satellite imagery in order to locate any events or changes inside forests. Geo-referencing in consolidation of notified forest blocks are very much useful for protection of forest boundaries to get

early warning and to avoid the encroachment of forest land for different activities. In this APO 2025-26, for protection of forest through consolidation by Geo-referencing of Notified Forest Blocks over an area of 20838 km² and 4099 km² of Revenue and Deemed Forest area with financial outlay of Rs.2200.00 Lakh. has been proposed. The details of activities are mentioned in Table 4.1

Sl. No	Item of Work	Outlay Rs. Cr.
B	Protection of forest through consolidation by geo-referencing of notified forest block of 20,838 sq km and 4,099 Sq km of revenue	22.00
1	Preparation of FRJVC report & maps after joint verification of forest and revenue personnel	5.00
	CMV MMV of Notified Forest Blocks of area 13046.87 Sq. Km. using Cadastral map from ORSAC	1.00
	Formation of Forest Revenue Joint Verification Committee	2.00
	Joint verification of Forest Blocks by forest and revenue personnel and preparation of FRJVC report & Map.(209 FBs area of 3893.97 Sq. Km.)	2.00
2	DGPS survey, QA QC Verification by ORSAC, and Map reparation.	14.00
	1. DGPS Survey of Forest Blocks, validation of the same by ORSAC, Final map preparation, Certification by FSO, Geo-database verification & updating the odisha forest land survey. (1. Final DGPS: 1324 FBs of area 18215.85 Sq. Km. 2. QA & QC and Geo-database: 1355 FBs of area 17289.58 Sq. Km.)	7.00
	Release of final payment towards completion of GRFL project in a Division. (4138 FBs of area 41156.57 Sq. Km.)	7.00
3	Digitization and geo-referencing of revenue and deemed forest of 4,099 Sq Km area & Preparation of degraded revenue Forest Land Bank for compensatory afforestation	3.00
	Draft-final DLC/ RoR Booklets prepared using the available DLC database, sent for authentication by Revenue Authority. (219 Tahsil with	1.00
	Digital Extraction of the authenticated DLC/ RoR using HRSI & Revenue Cadastral available with ORSAC. The detailed spatial database made available in OFMS- DRFL for Land bank verification by both Forest & Revenue Officials. (136 Tahsil with area 6526.54 Sq. Km.)	2.00
	Total-	22.00

5.2 Protection of Forest through provisioning of mobility by hired vehicle.

Forest protection is a vital aspect of forest management that focuses primarily on

prevention & control of destruction of forests due to biotic interference.

Inadequate protection measures lead to degradation of the value of forests. The survival and re-generation of flora and fauna has come under threat due to illegal exploitation of forest because of biotic and other anthropogenic factors. Continuous patrolling inside the forests alone will ensure proper watch against any such illegal activities and prompt legal action against any such forest and wildlife offences. There are sufficient network of forest roads inside but the lack of sufficient means in mobility and communication are the challenges coming on the way of forest protection. To fortify

the timely and regular patrolling, vehicular mobility is to be augmented. The mobility of frontline staff and other supervising staff is badly required for protection of Forests. Keeping this in view, provision has been made to deploy hired protection vehicles for the whole year in all forest Ranges, forest Circles etc. to the barest minimum of 227 nos hired vehicles. In this APO 2025-26, for forest protection **Rs.1184.94 Lakh.** has been proposed for engagement of 227 nos of hired vehicles for mobility of the field staff and the division wise details are given in the **Table 4.2.**

Table 4.2 Activity wise details for protection of forest through provisioning of mobility by hired vehicle (whole year)

6. Forest Fire Prevention and Control Operations

Forest fire is a global environmental problem causing extensive damage every year to forest ecosystems. The Forest types in Odisha are mainly dry deciduous and the entire forest area is very much susceptible to fire hazard. Forest Fire poses threat not only to the forest wealth but also to entire community of fauna and flora by seriously disturbing the biodiversity, ecology and environment. Forests are vast remote areas, full of highly combustible material with dry leaves and branches to act as a fuel source for fire. The fire ignition is primarily caused through human actions. The deciduous forests of Odisha suffer on account of repeated fire during summer months

resulting great loss to regeneration, moisture stress, biomass depletion and hardship to wildlife. It needs to be controlled and managed to safeguard productivity and ecosystem health. Steps have been taken to augment the existing manpower in organized groups to tackle forest fire in remote and inaccessible areas. Odisha Forest Department has developed SOP to combat forest fire from 2016-17. Leaf blowers to disperse leaf and creating fire line inside forest floor are effectively used. The following interventions are proposed in current APO for control and mitigation of fire as per integrated fire management plan prepared by state Forest Department

6.1 Fire protection rapid response teams involving community youth & hired vehicles for fire protection.

In this APO 2025-26, It is proposed to deploy Fire Protection Rapid response teams/units involving community youth (10 persons per Unit) with hired vehicles for Fire Protection. There are 213 units to be engaged during APO 2025-26 Fire

Season with a Financial Outlay of Rs **1923.39 Lakh** has been proposed and the division wise details are given in the **Table-5** and the location details are placed in the **Annexure III-L**

6.2 Creation and Maintenance of fire line

It is a time-tested methodology that evolved since long that fire line so created during January in the forest reduces the fire hazards in the forest. Fire line creation and maintenance is an important preventive method to control forest fire. It is created along all the compartment lines and the boundary line of the forests blocks as well as along the Forest Path and maintained at

regular intervals during the fire season. New fire lines need to be created taking into consideration vulnerability and past FSI report/ Satellite imageries. In this APO 2025-26, it is proposed for Creation and Maintenance of fire line over **19500 RKM** with a Financial Outlay of **Rs.881.40 Lakh**. The division wise details are given in the **Table-5**.

6.3 Procurement of Fire Blower including fuel and other accessories

In this APO 2025-26, for Procurement of Fire Blower including fuel and other accessories with a Financial Outlay of

Rs.198.90 Lakh has been proposed and the division wise details are given in the **Table-5**.

6.4 Logistic support for fire squads

In this APO 2025-26, for Logistic support i.e. Medicines, Fire protection Gear, Torch Light etc. for fire squads of 213 unit with a

Financial Outlay of **Rs 181.05 Lakh** has been proposed and the division wise details are given in the **Table-5**.

6.5 Training on Forest Fire to the frontline Forest Staff

It is necessary to impart training on Fire protection to frontline staff, Fire squad personnels, Local villagers, interested NGOs by the State Fire and Disaster Management officers. In this APO 2025-26

for Training on Forest Fire to the frontline Forest Staff of 283 units with a Financial Outlay of **Rs.28.30 Lakh** has been proposed and the division wise details are given in the **Table-5**.

6.6 Awareness Campaign in the Ranges

The inhabitants of forest fringe villages, village level workers, PRI members are to be properly educated to prevent fire and “Do’s” and “Don’t” are to be properly explained. For this the help of local SHGs/VSS are taken for

better results. In this APO 2025-26, a Financial Outlay of **Rs .141.50 Lakh** has been proposed for Awareness Campaign in the Ranges of 283 unit and the division wise details are given in the **Table-5**.

6.7 Fire Watch Tower

The earliest detection of forest fire results minimum damage to the forest flora & fauna. In remote forest area Fire Watch Tower is proposed at strategic locations for early detection and sharing of information with fire response teams. In this APO 2025-26, 10(ten) nos. of Fire Watch Towers with a Financial Outlay of **Rs.250.00 Lakh** has been proposed and the division wise details are given in the **Table-5**.

Table-5 Forest Fire Prevention and control Operations wage rate @452/-

7. Soil and Moisture Conservation in Forest area

Forest is the origin for the streams and rivers, therefore it is very important to conserve soil and moisture in its catchment area. Emphasis is given to the drainage line treatment. SMC works on the site are carried out as per the site-specific approved treatment plan.

Forests and trees affect the hydrologic behavior of a watershed, including the quantity and quality of stream flow, erosion and sedimentation. In general, natural forests yield the highest quality of water of any ecosystem. The lowest erosion and sedimentation rates are usually associated with forested watersheds in natural conditions. Stream flow from forested watersheds tends to be more uniform, with peak flows lower than those from watersheds with other vegetative cover. Watershed protection enhancement of water resources, and watershed rehabilitation. The importance of environmental services is becoming increasingly evident to society, in particular, carbon sequestration, biodiversity protection and water treatment and retention through soil and moisture conservation measures in the forest floor. Different model of SMC works like staggered trench, percolation pits, loose boulder check dam, brush wood check dam and graded earthen bunds etc are carried out to enhance the moisture regime in forest floor and periphery areas.

The SMC works have been proposed in saturation mode of each block. The DPR for SMC work has been proposed through LIDAR survey.

Soil and Moisture Conservation in Forest area is a major intervention to enhance the moisture regime of the forest floor. The contour trenches along contour in continuous or staggered manner is to reduce velocity of water and increase infiltration. Percolation pits need to be provided to trap precipitation. The graded earthen bund structure is proposed to be erected at the periphery of the forest block to retain the water for longer period and to facilitate percolation of water in more areas before wastage. In a forest patch the entire drainage line will be treated as per the requirement from top to bottom to check soil erosion through LBCD, Wire mess Check Dam, Cement concrete check dam etc. Considering present environmental crisis, massive soil and moisture conservation measures are proposed for execution in the field. The same is planned for each of the forest blocks in saturation mode and shall be carried out as per the DPR prepared for each forest block. In APO 2025-26, the SMC activities have been proposed over **5500 ha** area with total financial outlay of **Rs.2139.50 Lakh**. The division wise Physical and and Financial target of SMC under CAMPA APO 2025-26 are given in the **Table 6.1**.

7. Management of Biological Diversity and Biological Resources

Silvicultural research and experiments are carried out in the state to study different species in trial plots being raised at different research gardens situated in different agro climatic zones of the State. The data collected from different species

raised at different research gardens are being computed. Steps are also taken to increase the species for augmenting the data base to study on the growth of different indigenous species raised in different agro climatic zones of the State. In this APO 2025-26, for Silvicultural Operation and Maintenance of all Research Stations existing in the State has been proposed with fund allocation of **Rs.150.00 Lakh**. The Location wise details are given in the table 7.1.

Table 7.1 Division wise Activities under Silvicultural Operation and Maintenance of Research Stations

8. WILDLIFE MANAGEMENT

a. ACTIVITIES UNDER NPV 80% COMPONENTS

i. Wildlife Protection and Management

As narrated above wildlife protection and management is posed with many challenges due to increase in human population, developmental needs including linear infrastructure resulting in fragmentation of the habitats, blocking the

natural movement paths causing straying of animals, wildlife depredation due to human wildlife conflict etc. As per CAF Rule, 2018 the expenditure proposed under this head is from **80% NPV components**.

The following are the proposals under this item: -

1. Protection and Anti -Depredation Activities

❖ Protection of wild animals and their habitat is of paramount importance. This covers not only protection of wild animals in their natural habitats but also in the cases wherein they stray into human habitations, agricultural field etc. In the process, there is considerable damage to Wildlife as well as life and property of human beings.

❖ Therefore, due provision for rapid response, mobility, POL and procurement and maintenance of boats/boundary maintenance of protected areas/monitoring etc.

❖ In order to maintain continuity of wildlife habitats and to prevent encroachment, maintenance of boundary of protected areas is of prime concern.

❖ Apart from that in order to gather information on wildlife crime, creation of intelligence network between field and the divisions in close coordination with wildlife headquarters is required for quick exchange of information and ameliorative action. Beside this, monitoring of elephant movement, data related to wildlife crime needs to be shared on daily basis between headquarters and field units. For this purpose, 24 x 7 wildlife crime cells are functioning at the headquarters level and in all wildlife divisions. This is a necessary prescription from Wildlife Crime Control Bureau (WCCB), New Delhi also. Hence fund provision of **Rs.354.12 lakh** has been made in APO 2025-26 for the purpose as detailed below: -

Table 8.1.1.1 Protection and Anti-depredation Activities

Sl. No.	Item of work	Unit	Unit cost (Rs. in lakh)	Qty/ Unit (in No.)	Proposed amount (Rs. in lakh)

ii. Forest fire prevention and control

Forest fires from February to June are common phenomenon due to climate conditions. Fires cause huge loss to habitat by damaging regeneration, causing moisture stress, biomass depletion etc.

Many a times wild animals, their young ones or eggs also get damaged by it. In this connection the proposal for **Rs.765.24 lakh** as detailed below is incorporated in APO 2025-26.

Sl. No.	Item of work	Unit	Unit cost (Rs. in lakh)	Quantity/ Unit (In No.)	Proposed amount (Rs. in lakh)
(i)	Fire-fighting Squads including hired vehicle & it's fuel.	Nos.	9.03	48	433.44
(ii)	Fire-fighting equipment including Blowers along with fuel.	Nos.	0.65	100	65.00
(iii)	Logistics support for the firefighting squads.	Nos.	0.85	48	40.80
(iv)	Fire line Creation & maintenance.	KM	0.0452	5,000	226.00
Total:					765.24

iii. Wildlife Habitat, Restoration, and Improvement

❖ Habitat improvement is core to all wildlife related managerial interventions that aim to conserve, protect and proliferate biodiversity richness index both inside and outside protected areas. Required focus in this sector holds key to prevent wildlife habitat degradation and helps in reduction of wildlife depredation. Following activities are proposed for improvement of Wildlife habitats.

❖ This activity aims to reduce food and water scarcity for wildlife inside forest and protected areas. For this purpose, creation of 10 nos. of water harvesting structures, 30 nos. of water bodies creation and renovation of 50 nos. of water bodies has been proposed. This item also takes care of plantation of fruit bearing and fodder species around the water body and their subsequent maintenance until 3rd year.

❖ For promotion of ecological and socio-economic resilience of the country's coastal ecosystem, the MISHTI programme has been taken up in response to climate change in terms of green energy transition and green economy. So, to promote and conserve mangrove as unique, natural ecosystem having high biological productivity and carbon sequestration potential, working as bio-shield, **Rs.134.07 lakhs** has been proposed for the year 2025-26 towards core activities and support activities under CAMPA.

❖ Habitat enrichment through bamboo seed ball plantation, rhizome plantation and aerial broadcasting of seeds has been planned within forest

areas having steep slopes that otherwise cannot be taken up under normal plantation activity. Grazing depletes the meadows meant for herbivores, creates soil compaction, allows colonisation of non-palatable Invasive grass species and also increases the risk of transmission of communicable diseases. Hence, in this component, provisions have been made for creation and maintenance of meadows.

❖ Flowering of bamboo, forest fires etc majorly impact large stretches of forest area and severely affect fodder availability for the herbivore population. This needs immediate restoration and ameliorative steps to restore normalcy in bamboo crop density. Hence, interventions like improvement of bamboo clumps through appropriate silvicultural operations over an area of 1050 ha has been proposed for the protected areas within and outside PAs.

❖ The participation of local communities in jointly managing the whole landscape including protection monitoring and surveillance has become imperative and accordingly the prescriptions have been made.

❖ The ambit of wildlife management has to include the local population and villagers in discharging day to day activities concerning assessment of wildlife habitat and conservation of wildlife. The local population provide the necessary intel that helps enforcement activities against wildlife offenders and prevent commission of wildlife offences. The judicious involvement of local people with the forest staffs ensures community conservation of wildlife landscapes that instils an element of deterrence among the offenders.

❖ Hence, it is proposed to engage 90 units of local people on casual basis along with provision of mobility and necessary logistics for ensuring effective monitoring, assessment

❖ and protection of wildlife habitat both within and outside of PAs for which **Rs.3,975.04 lakhs** have been proposed as per the item-wise breakup detailed below in APO 2025-26.

Sl. No.	Item of work	Unit	Unit cost (Rs. in lakh)	Quantity/ Unit (In No.)	Proposed amount (Rs. in lakh)
(i)	Creation of water body (40m x 30m x 3m)	Nos.	7.50	30	225.00

Voluntary Relocation of Villages from Protected Areas and Tiger Reserve:

❖ Relocation of villages from protected areas and tiger reserves was initially started basing on Govt. of India guidelines of 2008 which was applicable only to core area of Tiger Reserves.

❖ As its relevance to maintain wildlife habitat contiguity and inviolate was realised, the state govt in June, 2016 brought out the state voluntary village relocation policy and extended the scope to buffer area of Tiger Reserves and other protected areas.

❖ During 2022-23 there has been a modification in the relocation policy of both Central and State Govt. The Central and State Govt have increased the relocation package from 10 lakh per family to 15 lakh per family. But state relocation policy has radically increased the scope whereby as per the modified policy, individual family can also relocate themselves @ Rs.20.00 lakh/per family (without any other convergence related facility) and also need not wait for the consent of the entire village. When the

relocation package of 15 lakh per family is offered, over and above the same, other facilities are also extended by way of convergence and in case the family does not want the benefit of the convergence, then the additional amount of Rs.5 lakh will be provided.

❖ The applicability of the current state relocation policy also extends to those villages which are situated in contiguous landscapes linking protected areas. In the last APO provision of Rs.2500.00 lakh was kept specifically for the purpose. In this APO 2025-26 it is proposed to continue with the said proposal and a sum of **Rs.3000.00 lakhs** have been kept for implementation of the five-year voluntary relocation scheme submitted vide letter No.7118 dt.04.09.2020. In this APO 2025-26, there is proposal of voluntary relocation of 309 families from Gopalpur & Tikarapada villages from Satkosia Tiger Reserve.

B. ACTIVITIES UNDER 20% COMPONENTS OF NPV

9. Capacity building of Frontline Forest Staff & Other Stakeholders

The demand for downstream services such as environmental education, health services, recreation and tourism based on forest is rising significantly and a skilled and enabled workforce is needed to meet the challenges. At present, there is lack of competent and adaptable work force in forest front line staff. Hence capacity building training programme is essential to keep abreast the latest emerging scenarios.

Importance of capacity building in form of different training programmes to equip front line forestry personnel with the desired knowledge and technical competence needs no elaboration. The fast-changing forestry scenario at the local, national and global levels makes the training needs more pronouncing. The details of the trainings held are enclosed for reference.

Soil and Moisture Conservation in forest areas is main factor in management and development of forest. The field staff needs to be trained in order to take up the job scientifically. It is decided to organize the training modules with the technical experts being hired for the purpose.

There has been a growing demand for supply of arms to forest personnel at the cutting-edge level mainly for self-defence and to deal with heavily armed smugglers and poachers often equipped with deadly weapons. The forestry personnel need adequate knowledge to use the arms

supplied to them. In order to bridge the gap, it is proposed to impart arms training with the help of District Police Administration in each Territorial Division.

There is also need for proper understanding of the legal provisions and latest amendments for all the frontline staff who are in the protection job. Frequent training by legal experts will definitely help to be conversant with existing Rules. A training module has been planned for the frontline staff on digitization of forest boundaries.

In the changing scenario, technological development is adopted in day-to-day forestry activities which needs specialized training on technical forestry matter required for the front-line staffs, such as nursery techniques, watershed management, silviculture, community participation, natural resource management etc.

There will be a special training module as a part of this programme to enhance the capacity of the forest staff for better and effective communication with village communities and inter departmental communication.

In this APO 2025-26 for Capacity Building of frontline forest staff and other stakeholders, a financial outlay of **Rs.50.00 Lakh.** has been proposed

10. Up-gradation of Communication and information Technology

Forest Information Technology & Geomatics Centre (FITGC) has been developed in the State Forest Head Quarters which plays a key role in Forests & Wildlife management, conservation, and its protection. In the said center, monitoring of different activities like forest and wildlife protection, forest fire, activities undertaken under CAMPA funding through Odisha Forest Management System, Forest Cover Change detection, Afforestation monitoring etc. are being taken up. There are 26 modules for survey/ implementation/ monitoring of different activities aimed towards better forest management and protection. To control/monitor all the above activities, Geomatics and other IT Infrastructure has been installed and configured in the State Forest Head Quarter's FITGC cell which is being utilized for the purpose and about 12TB data is being managed in the FITGC server stack. Till now, 8910 numbers of Android Mobiles of field staffs are registered in our

OFMS website, which are used for digital forest activity monitoring and data collection. This has made the field staff more comfortable with IT application. Under forest protection, focus is being given on foot patrolling by frontline field staffs which is also been monitored in the above center through web application. On an average 1,50,000-kilometer foot patrolling is done per month by the forest staff using GPS PDA & Android mobiles loaded with appropriate apps which is being monitored online through the web <https://odishaforestgis.in>. The forest fire monitoring is being done using MODIS & SNPP satellite platform in the above center.

In this APO 2025-26 for Up-gradation of Communication and information Technology, Geo-ICT facility-based Server infrastructure, maintenance and procurement of IT Equipment and devices with financial outlay of **Rs 1100.00 Lakh.** has been proposed as follows.

Sl. No.	Item of Work	Physical Target	Approximate Financial Outlay in Crore
	Up-gradation of Communication & Information Technology, Geo-ICT Facility & Devices		
1	Strengthening, Maintenance & Upgradation of the Odisha Forest Monitoring System & Odisha Timber Transit Permit System.	1. FITGC Server Stack 2. OFMS 3. OTTPS 4. All websites	1.00
2	Up-gradation of Server Network & all IT Infrastructure of Forest Headquarters including procurement, operation, extension of warranty of hardware & maintenance	For up-gradation of Server Network & all IT Infrastructure of Forest Headquarters, procurement of the following may be required: Computer System- 15 nos. 1 KVA UPS- 15 nos. Printer- 10 nos. Akruti odia Software- 10 nos.	2.00

	including Internet connectivity charges	UPS Battery- 30 nos. C-MoS Battery- 30 nos. Server- 8 nos. Layer 2 SWITCH- 4 nos. Firewall- 2 nos. SAN SWITCH- 2 nos. 40 KVA Online UPS – 2 nos. Unified storage- 1 no.	
3	Establishment of a dedicated & secured Multi-Protocol Label Switching (MPLS) & OSWAS connectivity between Directorates with Field Offices (Completed project)	Expenditure will be paid to OCAC for OSWAS Connectivity (e-filing) with field offices	4.00
4	Development of Odisha Plantation Monitoring System using Drone survey & AI/ML	1. Development of Odisha Plantation Monitoring System 2. Survey of plantation sites using drone	4.00
	Total-		11.00

11. Maintenance of Forest Roads.

The Infrastructural development like Maintenance of forest road is quite essential for mobility of forest staffs to ascertain the condition of forest growth and check the illicit removal of forest growth by the smugglers. Forest roads are damaged every year due to the

natural calamities, hence its repair and maintenance is inevitable for better forest management and wild life management. In this APO 2025-26 for Maintenance of Forest Road of 350 RKM, a financial outlay of **Rs 280.00 Lakh.** has been proposed.

12. Infrastructure Development

The CAF Rule-2018 provides for utilization of CAMPA fund towards development of basic infrastructure required for forest and wildlife management under two broad categories of (1) Maintenance and construction of forest roads etc. and (2) Constructions of

Residential/official buildings for front line staff. In APO 2025-26, the following infrastructures has been proposed with financial outlay of **Rs. 2,263.42 Lakh** including spill over works of previous APOs, the details of type infrastructure to be taken up in APO 2025-26 are given in **Table 12.**

Detail Activity	Physical Target	Unit cost (Rs in Lakhs)	Financial outlay (Rs in Lakhs)
Maintenance of Forest Road	350 Km	0.80	280.00
Range Office	4 Nos	39.73	158.92
Range Officer Residence	4 Nos	30.02	120.08
Forester Quarters	34 Nos	25.63	871.42
Forest Guard Quarters	50 Nos	20.26	1,013.00
Spill Over Works of Previous APO	LS	LS	100.00
Sub Total			2,263.42

a. Range Office Building

The Range Officer is the key position in the hierarchy in the implementation of various programmes of Forest Department. Since the inception of CAMPA, major focus is given on modernization and construction of Range offices and Range Officer Residential

accommodations. In this APO, proposals have been given for construction of 4 new Range offices in different Divisions. Financial outlay of **Rs.158.92 Lakh** @39.73 lakh/unit has been made in APO 2025-26 and details are placed in the **Annexure III-LI**

b. Range Officer Residence Building

A standard plan and estimate has been prepared for the residential accommodation of Range Officer, All the estimates are prepared as per the approved cost analysis of works Department, Govt of Odisha. In this APO 2025-26, the forest Range officer residence for **4 nos.** @30.02 lakh/ each with total financial outlay of **Rs.120.08 Lakh** has been proposed. The location details are placed in **Annexure III-LII**.

c. Forester Quarter Building

In this APO 2025-26, provision has been made for establishment of **34 nos.** of Forester Qtrs. with financial outlay of **Rs. 871.42Lakh** @25.63 Lakhs/Unit. The division wise location details are placed given in **Annexure III-LIII**

d. Forest Guard Quarter Building

In this APO 2025-26, provision has been made for establishment of **50 nos.** of Forest Guard Qtrs. with financial outlay of **Rs 1,013.00 Lakh** @20.26 Lakhs/unit. The division wise location details are placed given in **Annexure III-LIV**

e. Spill over Works of Previous APO

The spill-over works in the context of an Annual Plan of Operation refer to tasks or projects that were planned for last APO, but could not be completed within that timeframe due to unavoidable circumstances. In this context, financial outlay of **Rs.100.00 Lakh** has been proposed in APO 2025-26 for Spill over works of previous APO.

Table- 12 Proposal of Infrastructure Building during APO-2024-25

13.Casual Engagement of Local youth to assist regular staff of state forest department for protection of forest and wildlife undertaken from State Fund (10 person each in 227 units for whole year)

Forest protection is a vital aspect of forest management that focuses primarily on prevention & control of destruction of forests due to biotic interference. Inadequate protection measures lead to degradation of the value of forests. The survival and regeneration of flora and fauna has come under threat as a result of illegal exploitation of forest due to biotic and other anthropogenic factors. Illicit felling smuggling and poaching are a great threat in preserving, protecting and conserving the flora and fauna. Legal provisions made for forest and wildlife offences are not sufficient to address the problems completely due to inadequacy in infrastructure, trained frontline personnel & ancillary support. Vulnerable smuggling

pockets where acute timber smuggling is noticed were identified in the different forest Divisions.

Biotic and other anthropogenic factors affecting the quality of forest is mostly location specific and local community especially the youth having thorough knowledge about the terrain and traditional customs of the area should get more involved in the efforts of forest department in protection. Involvement of local youth ensures continuous monitoring against encroachment over forest land and unsustainable exploitation of the forest resources. Such Forest Protection through community involvement through local youth being the key intervention has been given top

priority under CAMPA. In APO 2025-26, provision has been kept for Casual Engagement of Local youth to assist regular staff of state forest department in protection of forest and wildlife (10 person each in 227 units for whole year). Considering the above criteria to safe guard the existing green cover 227 nos of squads with 10 persons in each squad

covering 219 Ranges in 37 Forest Divisions of the State and one protection squad in each circle covering 8 circles, has been proposed to be deployed to check against encroachment of forest land and smuggling activities. Under this activity **Rs.5284.56 Lakh** has been proposed for APO 2025-26. The division wise details are given in the **Table12**.

14. Survey & Mapping of Forest Areas to create Land Bank for Compensatory Afforestation

The compensatory afforestation activities are the first mandate of CAMPA programme. Search of suitable non-forest

land for raising compensatory afforestation leads to delay in processing diversion proposals. The land bank

concept was brought in to ease out the process for identifying CA areas against the diverted land for diversion proposal. The State Government decided to create Land Bank comprising non-forest Govt land and degraded revenue forest land for compensatory afforestation. The user agency can avail facility for allotment of land for CA by the District Collector as per prevailing Rules and procedures.

In the present scenario it has become a herculean task to identify the forest land for taking up compensatory afforestation

15. Monitoring & Evaluation including 3rd Party Monitoring

For monitoring of the schemes and their accounting a timely updating of the data, uploading in e-Green watch Portal, and OFMS is essential. For the above works, one support staff who is well conversant with data management and analysis is required for each Range and the cost of out sourcing of same has been proposed in this APO. Further, as per CAMPA

whenever the diversion proposal is initiated as per Forest Conservation Act. To fulfil the immediate need for compensatory afforestation creation of land bank is most essential. Survey and Mapping of available blank forest area is essential for creating land bank. Therefore, in APO 2025-26 a financial outlay of **Rs.100.00 Lakh** has been proposed for identification, Survey & mapping.

guidelines, all the activities of previous operations carried out under CAMPA are to be monitored and evaluated by an independent/3rd party organization to assess the quality as well as effective utilization of funds. To carry out different monitoring and evaluation works, a provision has been made in APO 2025-26 for **Rs.150.00 Lakh**.

16. Publicity & Awareness Programmes

Various activities are being implemented by the Odisha Forest Department which needs to be displayed in public domain.

Hence a financial outlay of **Rs.100.00 Lakh** has been proposed in APO 2025-26.

Table 16 Publicity & Awareness programmes

Sl. No.	Item of work	Unit	Unit cost (Rs.in lakh)	Quantity/Unit (in No.)	Proposed amount (Rs.in lakh)
(i)	Research, Publicity, Awareness, Training, Capacity building, Documentaries, IEC Material & Observation of Important days etc.	LS	LS	LS	100.00
Total:					100.00

17. Wildlife Management (20% NPV)

a. Strengthening of Communication facilities for Protection of Wildlife:

For improving the performances of protection staff, it is essential to have

better and advanced communication facilities available with them and for

these, following activities are proposed in this APO 2025-26.

- i. Procurement of GIS/MIS and Analytic software, hardware and information management and cost towards annual maintenance of apps, portals & essential utilities at State Wildlife Headquarters.

- A. Installation of New VHF base station including satellite tracking.
- B. Maintenance/Repair of VHF base station.
- C. Procurement of VHF Equipment.
- ii. Equipment for monitoring wild animals and protection activities.

Table 17.1 Strengthening of Communication facilities for Protection of Wildlife in APO 2025-26

b. Construction and Maintenance of Infrastructure for Protection of Wildlife:

To save guard the forest wealth, it is essential to conduct regular patrolling and to take up other important departmental works, maintenance of forest road/inspection path is highly necessary. In this connection the detailed proposal

for **Rs.500.80 lakh** is submitted to the Chief Executive CAMPA, State Authority, for inclusion in the Annual Plan of Operation at their end.

Table 17.2.1 Construction and Maintenance of Infrastructure for Protection of Wildlife

Sl. No.	Item of work	Unit	Unit cost (Rs. in lakh)	Quantity/ Unit (in No.)	Proposed amount (Rs. in lakh)
(i)	Maintenance of Forest Road/Inspection Path	Kms.	0.80	626	500.80
Total:					500.80

PART-IV

**Activities to be undertaken From Interest Component
referred in Rule-6 of CAF Rules 2018**

PART - IV

UTILIZATION OF INTEREST MONEY

The interest accrued on monies in the State Fund shall be utilised for the activities in the manner as per provisions under Rule 6(a) & Rule 6(b). The activities under Rule 6(a) includes offsetting of incremental cost of site specific activities, Salary, allowance of members and staff of the State Authority also the activities referred to in Sub Rule 2, 3 of Rule 5, which should not be less

than 60%. The activities under Rule 6(b) includes Management of office Equipment, Contingency for management of State Authority also other activities for management of Forest and Wildlife not referred to in sub rule 2 & 3 with prior approval of Steering Committee and it should not be more than 40% of the interest component.

Detail Activity	Unit	Physical Target	Unit cost @452	Amount
60 % of Interest Money				
Escalation of program cost due to revision of wage rate	LS			300.00

Audio-Visual and Furnishing works at the State Forest Academy	LS			1,000.00
Charges for consumption of internet data etc.	LS			200.00
Total 40% of interest funds				1500.00
Total Interest				10159.84

(Activities under 60 % of Interest Money)

1. Escalation of program cost due to revision of wage rate

There are wage revisions at periodic intervals by the State Government. There is need for a provision to offset the increased wage rate as and when required. Hence an allocation of

Rs. 300.00 Lakh has been kept on lumpsum basis to meet the escalated enhanced program cost in the APO 2025-26.

2. Raising and Maintenance of 18 months seedling

The enrichment of the forest by supplementing massive plantations in and around the forest areas is the most effective mechanism for enhancing the green cover in Odisha. A review of old practice by raising 6 months old seedlings shows that the plantation of tall seedlings (18 months old) gives better growth and survival. Therefore, it

is proposed to maintain 2.66 cr. 18 months old seedlings & raising of 1.20 crore seedlings during January 2026 in different nurseries of various Divisions of the State under APO 2025-26 with financial outlay of **Rs 8359.84 Lakh**. Division wise details of the seedlings to be grown are given in the following **Table 18.1**

Division Wise details of raising and maintence of 18 months seedling

Circle	Division	18 month old seedling					
		Maint. of 18 months seedling (Apr-25 to June-25) (January, 2024) @Rs.8.31400		Maint. of 18 months seedling (Apr-25 to Mar-26) (January, 2025) @Rs.46.25600		Creation of 18 months seedling (Jan-26 to Mar-26) (Raising January, 2026) @13.29400

3. Management of office establishment of State Authority

As per Section 10 of CAMPA Act, the State Authority has been notified by the State Government of Odisha on 29.9.2018. The Authority requires funds for its day to day functioning as permissible in the Compensatory Afforestation Fund Act, 2016 & the

Compensatory Afforestation Fund Rule, 2018 of CAMPA. An amount of Rs. 300.00 Lakhs has been kept for the contingent expenses, office expenses and the salaries towards engagement of human resources in CAMPA Authority.

4. State Forest Academy

The implementation of provisions of CAF Act and Rules does not limit to the State Authority and has got larger connotations ranging from Mining, Revenue, Finance, Tribal Development, Livelihood Support, Rural Development and other stakeholders. Realizing this, the Government of India has also kept people from divergent fields in the

Executive Committee, Steering Committee and the Governing Body. All such members involved need to be sensitized at periodic intervals. It is therefore envisaged to put in place a capacity building centre for the capacity enrichment of different stakeholders of forest management. State Capacity Building centre will provide such a

platform to enlighten people, policy makers on several aspects of overall forest management. The State Level Steering Committee accords top priority to the development of Capacity building

centre i.e State Forest Academy. This activity is permissible as per Rule 6 (b) and Rule 5(3). This is an ongoing activity and in the current year, an amount of **Rs. 1000.00 Lakh** has been proposed.

5. Charges for consumption of internet data etc and other contingency of State Authority

The staff at field level while executing afforestation, protection and management of forest and wildlife, use different IT Devices and gadgets for monitoring. For uploading of field information in the departmental web portal, e-green watch portal, OFMS,

meeting and training on virtual mode, the field officials incur expenses towards consumption of Internet Data. An amount of **Rs. 200.00 Lakh** has been proposed to meet their expenses in this APO 2025-26.

PART-V

Measurable output of all physical activities and targets of each permissible activity along with the period required for achieving the measurable output.

1. (A) PHYSICAL AND FINANCIAL TARGETS OF THE ACTIVITIES TO BE UNDERTAKEN UNDER APO 2025-26

APO 2025-26 comprises of mandatory activities like Compensatory Afforestation, PCA, 1.5 SZ, Site specific Conservation Plan, Regional Wildlife Management Plan, different models of Plantations under NPV, Subsidiary Silvicultural Operations of Bamboo, Forest Protection, Soil and Moisture Conservation Measures, Wildlife Management, Infrastructure development, IT & GIS, Biodiversity Management, Capacity Building, etc. The above activities under APO 2025-26 are to be mainly implemented by the

territorial, wildlife wing and Forest IT & GIS cell. As advised by the National Authority while discussing the previous Plan, efforts are made to separate the activities done by the wildlife wing and territorial wing. The main expenditure is planned under NPV. The categories of NPV under 80% and 20% are also separated as per CAF act & Rules. As per the CAF Rule 6 interest part has been considered and activities under 60% and 40% has been incorporated in this APO 2025-26 which has been depicted in the table below activity wise.

Abstract of Activities Proposed in APO 2025-26

1.1 AFFORESTATION ACTIVITIES

The afforestation activity is the primary programme of the APO 2025-26 which includes plantations under CA, PCA, CATP and AR, ANR, Bald Hill, Casuarina, Mangrove under NPV and the maintenance of previous years plantations. In addition to the plantation, rehabilitation of degraded forests

and conservation of RET/medicinal patches of indigenous species are also taken in to consideration in different planation models under AR & ANR. In this APO 2025-26, the plantation programme of different models considering site specific and socio-economic utility of indigenous species are taken up.

1.1.1 Plantations under CA, PCA

The physical and financial target of plantation operations under CA, PCA being carried out in the current

year APO 2025-26 which are given in the following table

Year Wise & Model wise CA/PCA Plantations and Maintenance of Old Plantations

Year	AR (in Ha)	ANR (in Ha)	ANR (WG) (in Ha)	Bald Hill (in Ha)	No. of Tree Plantns (in Nos)	Canal Bank/ Avenue Plantn (in RKM/No)	Fin. Outlay (Rs. in Crore)

1.1.2 Plantation Activities under NPV

The plantation programme of different models considering site specific and need of society are fully taken into consideration. In APO 2025-26, in AR mode plantation like Economic plantation, Indigenous plantation, River Rejuvenation plantation, Bald Hill, Casuarina & Mangrove. Plantations with maintenance

of old year plantations up to 4th years are taken up. In ANR model Vanya Silk, Fodder & Fruit, RET/Medicinal & other indigenous misc. plantations are considered. The physical and financial target of the plantation activities are given in the following table

Current Year Plantations

1.2 Silvicultural Operations

Subsidiary Silvicultural Operations for bamboo coupes as per working plan prescription has been included over **45000 Ha.** with financial outlay of **Rs 1627.20 Lakh** has to be

taken during APO 2025-26. The physical and financial target of the activities are given in the following table

Detail Activity	Unit	Physical Target	Unit cost	Financial outlay
Silvicultural Operation of Bamboo	Ha	45,000	0.03616	1,627.20
Total Silvicultural Operations				1,627.20

1.3 Soil and Moisture Conservation Works

Soil and Moisture Conservation Works proposed to be undertaken in APO 2025-26 in massive manner over an area of **5500 Ha.** With financial outlay of **Rs 2139.50 Lakh.** The main moto of SMC is to conserve the water and raise the water regime. In this APO 2025-26

the forest blocks in different divisions has been identified to complete the SMC activities over entire area in specific period. For the SMC activity the DPR is prepared. The detail table is mention below.

Sl No	Circle	Name of the Division	Target for SMC Work Area in Ha.	Financial Outlay (Rs in Lakh)
1	Angul	Angul	300	116.7
2		Athmallik	100	38.9
3		Dhenkanal	200	77.8
4		Athgarh	250	97.25

1.4 Protection Activities

Forest being the open treasury needs proper protection for its better management. For protection activity communication, information exchange and movement of forest patrolling staff are the basic need. Fire hazard inside forest is a damaging factor which needs proper arrangement to combat it. For movement of staff

vehicular arrangement are quite necessary to restrict the theft and fire incidences inside forest, staff with local people movement is quite inevitable. A financial outlay of **Rs 5765.84 Lakh** has been proposed for the protection activities in APO 2025-26. The details of Protection activity are mentioned in the following table.

Detail Activity	Physical Target	Fin. Outlay (Rs in Cr.)
Protection Activities		
Protection of Forest through consolidation by Geo-referencing of Notified Forest Block		2,200.00
Protection of Forest through provisioning of mobility by hired vehicle	227 No	1,184.94
Sub Total		3,384.94
Fire Protection		
Fire Protection Squad (5 Months)	213 Nos	1444.14
Engagement of hired vehicle (5 months)	213 Nos	479.25
Creation and Maintenance of fire line	19500 Km	881.40
Procurement of Fire Blower including fuel and other accessories	306 Nos	198.90
Logistic support for fire squads	213 Nos	181.05
Training on Forest Fire to the frontline Forest Staff	283 Nos	28.30

Awareness Campaign in the Ranges	283 Nos	141.50
Fire Watch Tower	10 Nos	250.00
Sub Total		3,604.54
Total		6,989.48

2. Wild Life Management Activities:

Several activities are proposed for wildlife management. The main activities include protection of wild animals through a network of wildlife trackers, anti-depredation squads, fire protection squads, relocation of villages from protected areas, tiger reserves, habitat improvement works like meadow development, water body

creation, salt licks, black buck protection activities, SMC works in wildlife areas to enhance water regime in the forest for wild animals, strengthening of animal rescue centers, research activities, etc. The details of the activities and the financial allocation under APO 2025-26 are given in the following table.

Wildlife Activities

Activity Name	Outlay Rs. in Lakhs
Protection under Wildlife Management	354.12
Forest Fire Prevention under Wildlife Management	765.24
Wildlife Habitat Restoration and Improvement	3975.04
Relocation of Villages in Protected Areas	3000.00
Equipment/ devices for Communication & IT Activity	390.00
Total	8,484.40

2.1 Infrastructure

The CAF Rule-2018 provides for utilization of CAMPA fund towards development of basic infrastructure required for forest and wildlife management under two broad categories of (1) Maintenance and construction of forest roads etc. and (2)

Constructions of Residential/ official buildings for front line staff. In APO 2025-26, the following infrastructures has been proposed with financial outlay of **Rs.3044.22 Lakh** for Forest and wildlife Divisions including spill over works of previous APOs.

Detail Activity	Physical Target	Unit cost (Rs in Lakhs)	Financial outlay (Rs in Lakhs)
TERRITORIAL WING			
Maintenance of Forest Road	350 Km	0.80	280.00
Range Office	4 Nos	39.73	158.92
Range Officer Residence	4 Nos	30.02	120.08
Forester Quarters	34 Nos	25.63	871.42
Forest Guard Quarters	50 Nos	20.26	1013.00
Spill Over Works of Previous APO			100.00
Sub Total (Territorial)			2,543.42
WL WING			
Construction and Maintenance of Forest Roads /Paths	626 Km	0.80	500.80
Sub Total (Wildlife)			500.80
Total			3,044.22

2.2 Maintenance of 18 months old Seedlings

Interest component are divided into two parts. In 60% interest component Maintenance (3 Months) of 18 Months Old Seedlings to be planted during 2025-26 for **146 Lakh** of Saplings and maintenance (12 Months) of 18 months old seedlings to be planted during 2025-26 for **120 Lakh** of Saplings. Creation (3 Months) of 18 months old seedlings to be planted during

2027-28 for **120 Lakh**. In addition to that escalation of program cost due to revision of wage rate has been proposed.

The details of the activities and the financial allocation under APO 2024-25 are given in the following table.

Detail Activity	Unit	Physical Target	Unit cost	Financial outlay
Maint. of 18 months seedling (Apr-25 to June-25)	Nos	146 Lakh	8.314	1,213.84
Maint. of 18 months seedling (Apr-25 to Mar-26)	Nos	120 Lakh	46.256	5,550.72
Creation of 18 months seedling (Jan-26 to Mar-26)	Nos	120 Lakh	13.294	1,595.28
Total maintenance Raising Seedlings...				8,359.84
Escalation of program cost due to revision of wage rate	LS	LS	LS	300.00
Total maintenance Raising Seedlings + Escalation of Wage Rate				8,659.84

3. Capacity Building, Publicity Awareness, Management of office establishment, State capacity Building, Updating of OFMS Web Portal are included in Interest component.

Out of 40% Interest component, each year various forestry activities under CAMPA and other schemes are being implemented. Awareness programme and important days are observed under environment and wildlife matter. Various publicity materials are also prepared to

make the targeted stake-holders and general public aware about the programme. The details of the activities and the financial allocation under APO 2025-26 are given in the following table.

Activity Name	Outlay Rs. in Lakhs
Capacity Building	50.00
Publicity Awareness	100.00
Monitoring & Evaluation including 3rd party monitoring	150.00
Management of office establishment of State Authority	300.00
Audio-Visual and Furnishing works at the State Forest Academy	1,000.00
Charges for consumption of internet data etc.	200.00
Total	1,800.00

B- MEASURABLE OUTPUTS OF THE PHYSICAL ACTIVITIES UNDERTAKEN UNDER CAMPA:

Broadly defining, CAMPA APO 2025-26 has been formulated focusing on Afforestation, Subsidiary Silvicultural Operations of Bamboo, Soil and Moisture Conservation measures, various forest

protection activities, Wildlife management, infrastructure development, training and capacity building.

a) The output for the Plantation & Nursery Activities:

1. Enhancement of Green Cover.
2. Reduction in Soil Erosion
3. Enhancement of the microclimate of the area
4. Socio-economic development and provision of employment to the villages living in the forest fringe villages.
5. Plantation outside the forest area increases the tree cover.
6. Involvement of people, students, civil society in the plantation activity increases the awareness towards forest, nature and make them good responsible citizens and empathy to forest and wildlife.
7. Increase in regeneration, coppice.
8. Providing shelters to wildlife.

b) The output for Forest Protection:

1. Enhancing the green cover.
2. Reduction in forest fire.
3. Make people partners in forest management and it results in owning the common property resources for the society.
4. Enhancement in the natural regeneration.
5. Increase in wildlife population.
6. Quantity of seized produce, number of accused arrested, trends in offence incidents.
7. Extent of cooperation of the villagers in the forest protection
8. Usage and adequacy of fire protection, fire extinguishing equipment's.

c) Output for Wildlife Management Activities:

1. Reduction in wild animals straying incidences
2. Increased sighting of the wild animals
3. Increase in the health of wild animals.
4. Reduction in the Man animal conflict
5. Reduction in the unnatural death and injury of the wild animals.
6. Improvement in prey-predator ratio in the forest and wildlife areas.
7. Reduction in major wildlife crimes and efficient detection mechanism
8. Increase in the research activities especially sea turtle nesting, migratory birds, translocation of wild animals, management of tiger reserves, Orchids in nature, etc.
9. Reduction in the occurrence of infectious diseases to wild animals due to cattle.

d) Measurable Outputs of Infrastructure Development:

1. The increase in confidence and motivation levels of the staff as their personal needs are taken care of
2. The extent of occupancy and usability of the accommodation that is developed.
3. Increase in the mobility inside the forest areas as there is improvement in the forest road, construction of culvert, causeways are being constructed

e) Measurable outputs of SSO, Bamboo:

1. Increase in the quality of Bamboo crop.
2. Increase in the height of the Bamboo culms
3. Decrease in straying of wild animals outside the forest as there will be
- increase in the availability of food inside the forest area
4. Increase in the livelihood options of the Bamboo artisans living in the vicinity of the forest areas.

f) Measurable Outputs of SMC Works:

1. Extent of enhancement of water table
2. Extent of siltation
3. Support of the villagers as there would be increase in the water supply to the agricultural crops.
4. Increase in the availability of water inside the forest areas.

C1 DETAILS OF MONITORING AND EVALUATION:

1. The monitoring of the CAMPA activities is an ongoing process. There are different levels of monitoring.
2. Studying and analysing the data obtained from the field.
3. All the Muster rolls are checked by the Range Officers (50%), ACF (20%), DFO (10%)
4. All the work sites are inspected by the field officers in the proportions enunciated as per the Forest Code.
5. The officers of the PCCF office are designated to visit the circles and do the field inspections and guide the field staff accordingly.
6. The technology has been leveraged for monitoring the works.
7. Forest Information Technology & Geomatic Centre (FITGC) has been developed in the State Forest Hqrs which plays a key role in forests and wildlife management and its protection. In the said centre, monitoring of different activities like forest and wildlife protection, forest fire, activities undertaken under CAMPA funding through e-Green Watch, afforestation etc. is being taken up.
8. In the forest protection, more focus is given on foot patrolling by frontline staff which is also being monitored in the above centre. On an average, 150,000 KMs of foot patrolling is being done by the frontline staff per month using GPS-PDA and android based mobile loaded with appropriate apps which is being monitored online.
9. The forest fire monitoring is being done on MODIS and SNPP satellite platform in the above centre. There are 23 different apps for implementation / monitoring of different activities aimed towards better forest management and protection. To control/monitor all the above activities, a Geomatic and other CIT Infrastructure has been installed in the Forest Hqrs FITGC Cell which is being utilized for the purpose and about 10 TB data is being managed in the FITGC Cell.
10. Customized GAGAN enabled GPS-PDA devices has been provided to all the Ranges in the field and is being utilized for operating different forestry applications being used for forest and wildlife management and protection. Mobile sets are being also utilized by the field functionaries for using the above forestry applications.
11. Even Elephant movements are monitored through apps and at many times, it has come handy to avoid accidents.

C2 THIRD PARTY MONITORING:

1. As per CAMPA guidelines, all the activities of previous operations carried out under CAMPA are to be monitored and evaluated by an independent/3rd party organization to assess the quality as well as effective utilization of funds. M/s CTRAN Consulting Ltd. has taken up 3rd party evaluation for APO 2009-10 to 2016-17 and has submitted the final report. Third party Monitoring & Evaluation of APOs from 2017-18, 2019-20 and 2020-21 has been entrusted to M/s Price Waterhouse Coopers Pvt. Ltd and has submitted the final report.

The Third-party monitoring of CAMPA activities of APO 2021-22 has been entrusted to M/s Ernst & Young LLP and has also submitted the final report. M/s Agricultural Finance Corporation Ltd. (AFC Ltd.) has been selected for evaluation of CAMPA activities of APO

2022-23 and submitted the report. For evaluation of APO 2023-24 by third party the tendering process is on progress.

The final report on third-party monitoring is usually sent to the National Authority and to all other concerns. The report is also published in the website of PCCF & HoFF, Odisha.

2. Internal auditors have been appointed through different CA Firms to audit the CAMPA works. Their job is to ensure all the financial procedures, whether followed as per CAF Act and Rules by all the implementing units. Also to see the implementation of Direct Benefit Transfers to the individual beneficiaries, submission of monthly accounts, MPR, QPR, etc. The auditors will give their half yearly reports on CAMPA working as per CAF Act and Rules.

**Proceedings of the 22nd Meeting of State Level Steering
Committee of State CAMPA, Odisha held at 11.30 AM
on 04.02.2025 under the Chairmanship of Chief
Secretary, Odisha.**

.....

The State level Steering Committee meeting of the State Authority CAMPA was held under the chairmanship of the Chief Secretary, Odisha on 4th February 2025 at 11.30 AM in the 2nd Floor Conference Hall of Lokseva Bhawan. The list of the officials/participants is at Annexure.

Initiating the discussion Additional Chief Secretary, FE & CC Department welcomed the Chairman and participating members and briefed about the functioning of State CAMPA. PCCF & HoFF, Odisha briefed the committee about provisions under CAF (Act), 2016 and CAF (Rules) 2018 which stipulates the manner in which the CAMPA funds would be utilised and the latest guidelines of National CAMPA. He also apprised the committee about the different activities of CAMPA under Mandatory Activity, Activity under NPV & Interest Component with an Outlay of **Rs 1078.10 Crore** for APO 2025-26. He further explained that the activities proposed are as per prescriptions of the Working Plan/ Working Schemes, Wildlife Management Plan.

Then the Chief Executive Officer, State Authority CAMPA gave a detailed presentation on implementation of ongoing APO 2024-25, present fund position of State CAMPA and details of proposed CAMPA APO 2025-26.

Progress of APO 2024-25

The APO 2024-25 was proposed for **Rs 1287.84 Crore** and National Authority CAMPA approved activities with an outlay of **Rs 1112.93 Crore**. The State Authority has utilised the fund to the tune of **Rs 804.06 Crore** as on 25.01.2025 through different Implementing Divisions.

The CEO CAMPA apprised the committee about the present fund position of State Authority as on 30.11.2024 which is furnished below

FUND POSITION OF STATE AUTHORITY CAMPA.

(A) Amount Received from National Authority
after reconciliation up to 31.03.2023 8192.86 Cr

(B) Amount Deposited by User Agencies from 01.04.2023

TOTAL DEPOSIT (A+B) Rs. 9081.44 Cr

(C) Interest accrued from Loan to Govt. and ATB
Investment up to 31.10.2024 (+)1137.62 Cr

GRAND TOTAL (A+B+C) Rs. 10219.06 Cr

(D) Expenditure

i. Expenditure towards APO-2019-20 (-) 421.07 Cr
ii. Expenditure towards APO-2020-21 (-) 674.99 Cr
iii. Expenditure towards APO 2021-22 (-) 841.67 Cr
iv. Expenditure towards APO 2022-23 (-) 931.10 Cr.
v. Expenditure towards APO 2023-24 (-) 833.87 Cr.
vi. Amount Budgeted for APO 2024-25 (-)1287.84 Cr.

Total Expenditure Rs.4990.54 Cr.

Balance Fund Available with State Authority((A+B+C)-D) Rs.5228.52 Cr

Out of the total fund Rs 5228.52 Cr available, Rs.5036.92 Cr. has been invested in ATB & Loan to Government.

ANNUAL PLAN OF OPERATION (APO) 2025-26:

Basing on the available funds position mentioned above, State Authority CAMPA, pursuant to the provision of Rule 39 of CAF Rule 2018, and guidelines issued by the National Authority incorporating the activities proposed by implementing Divisions in consonance with prescriptions of Working Plan/ Working Scheme and Wildlife Management Plan, has formulated APO 2025-26 with an outlay of Rs 1078.10 Crore.

ABSTRACT OF OUTLAY OF APO 2025-26

Name of Component	Financial Outlay (Rs in Crore)
Activities under CA, PCA, ACA	169.45
Activities under CA Others	14.33
Activities under CATP	3.37
Activities under IWLMP	274.67
Activities under NPV Component	514.68
Activities under Interest Component	101.60
Total	1078.10

The detailed componentwise activities proposed are as follows

1. SITE SPECIFIC ACTIVITIES INCLUDING CA, PCA AND CATP

New plantations under CA, PCA & CATP Activities are proposed in the APO under Section 6(a) of CAF Act 2016, considering the approved schemes and compensatory afforestation area pending for implementation. The status of Compensatory Afforestation is as follows.

The total area diverted up to September 2024	68106.190 Ha
Stipulation for Compensatory Afforestation up to September 2024	95848.231 Ha
Achievement of Compensatory Afforestation up to September 2024	79264.744 Ha
Balance Area to be covered for Compensatory Afforestation	16583.487 Ha
Proposed area for Compensatory Afforestation in APO 2025-26	6371.148 Ha

MPC

The details of new plantations and maintenance of previous years' plantations under Compensatory Afforestation, Penal Compensatory Afforestation, Additional Compensatory Afforestation etc. proposed in APO 2025-26 are given below.

1.1. Compensatory Afforestation, Penal Compensatory Afforestation, Additional Compensatory Afforestation etc.

The prime mandate of CAMPA is to fulfill the targets of compensatory afforestation plantation programme. Various models of plantation activities proposed under CA, PCA, Addl. CA in APO 2025-26 are; 824.86 ha block plantation, ANR with gap 6066.87 Ha, ANR without gap 30.53 ha, tall tree plantation of 9575 numbers and 18.998 RKM of Avenue Plantation. To achieve the targets of APO 2025-26 a financial outlay of **Rs 187.15 Crore** has been provisioned including ancillary activities for above CA, PCA, etc and maintenance of old plantations. The year wise activities of plantations including maintenance of CA/PCA/CATP etc are given below.

Year wise plantations activities and maintenance of CA/PCA/ACA/CATP etc

Sl	Year Operation	AR in Ha	Bald Hill in Ha	ANR in Ha	ANR without Gap	No. of Tree Plantation in Nos	Canal Bank/ Avenue Pltn in RKM/ Nos	Financial Outlay (Rs. in Crore)
1	1st Year	824.86		6066.87	30.53	9575	18.998	115.06
2	2nd Year	549.23	284.88	3531.29	155.80	61042	1.60	15.61
3	3rd Year	189.18	405.03	1354.48	159.32	29346		1.92
4	4th Year	498.64	168.08	2803.45	720.74	11550	1700 nos.	1.71
5	5th Year	185.44	344.61	3414.76	3.91	340	10.12	1.06
6	6th Year	87.46	727.85	2684.22	449.50	5050		1.46
7	7th Year	273.06	383.25	4488.23	93.17		31.10	1.37
8	8th Year	174.48	0.00	1218.36	0.00	640		0.35
9	9th Year	75.81	152.00	2878.89	0.00	100		0.61
10	10th Year	401.90	0.00	2745.83				0.73
11	PO Work for 2026-27	500.00	500.00	4000.00				37.27
12	Addl. CA (Kalahandi South, Bolangir, Sundargarh, Rayagada, Rajnagar WL Division) <i>Tree-for-Tree</i> concept to accommodate balance seedlings)							10.00
Total		3760.06	2965.70	35186.37	1612.97	117643	61.818 RKM + 1700 nos.	187.15

MC

1.2. Site Specific Wildlife Conservation Plan

The site-specific wildlife conservation plan formulated by the DFOs aiming at Project wise site-specific interventions and approved at the level of Chief Wildlife Warden, Odisha, at the time of submission of Forest Diversion Proposal for approval by MoEF & CC are taken up for its implementation. A provision of **Rs.143.53 crore** has been kept in this APO to implement the current year interventions in respect of 272 nos site-specific wildlife conservation plans. (230 ongoing + 42 new)

1.3. Regional Wildlife Management Plan (RWLMP)

While sending proposals for diversion of forest land for mining purpose, State Government stipulate for realization of cost towards implementation of Regional Wildlife Management Plans across the state as per the norm fixed by the State Government. A Financial Outlay of **Rs 77.00 Crore** has been proposed in APO 2025-26 for implementing the activities of Regional Wildlife Management Plan as per requirement.

Further there is an additional requirement of **Rs. 54.14 Crore** towards refund (Part payment) of Compensatory levies against M/S OMC Ltd (Rs. 45.48 Cr) and M/S Tata Steel Ltd. (Rs. 8.66 Cr) in pursuant to GoI MoEF & CC Letter No: 8-23/2005 FC dated 10-01-2023 and letter No 37/1996-FC dated: 11-01-2024

Hence a total provision of **Rs.131.14 crore** has been kept in this APO to implement the Regional Wildlife Management Plan.

2. ACTIVITIES UNDER NPV

The following activities are permissible under Rule 5 (2) & 5 (3) of CAF Rule 2018 out of the money received towards Net Present Value (NPV) from user agency & deposited in the State Fund

2.1. ACTIVITIES UNDER NPV 80% [Rule 5(2)]

The following activities permissible under Rule 5 (2) of CAF Rules 2018 under 80% NPV component have been kept in APO 2025-26 as briefed below.

2.1.1. Plantation Activities:

In APO 2025-26, an area of 19500.50 Ha (ANR 18285 Ha + AR 1215.50 Ha) has been proposed to be taken up for plantation with an outlay of Rs.222.49 Crore including maintenance of old plantation of 105299 Ha. Different models of site-specific and species-specific plantation activities have been incorporated in APO 2025-26. In this APO, efforts have been made to accommodate various models of plantations considering the species diversity, feasibility, suitability of species and need of the forest dependent community and wildlife of the area. Under AR Plantation, various models have been proposed such as:

1. Economic plantation of High value species
2. Indigenous species plantation
3. River rejuvenation plantation
4. Bald hill plantation
5. Casuarina plantation
6. Mangrove plantation with fishbone Channel.

Similarly, under ANR plantations, various models have been proposed to be taken up such as

1. Vanya silk plantation
2. Fodder and fruit plantation
3. RET /Medicinal species plantation
4. Other Miscellaneous species plantation etc.

The detail of plantation program proposed in the APO 2025-26 is furnished below. Further, the proposal for maintenance of old plantations of last 3 years has also been kept in this APO.

MC

Act/ Rule	Detail Activity	Physical Target (Ha)	Unit cost @452	Financial outlay (in Crore)

	Spill over Works for Plantation Works of Previous APO			1.50
	AR Total	9058.50	-	49.16
	Plantation Total	124799.50		220.46
	Provision to meet additional requirement due to change in plantation cost norm & interim wage revision			2.03
	Grand Total			222.49

2.1.2. Regeneration of Degraded Bamboo Forests (SSO Bamboo):

The basic principle of bamboo forest management focuses on growth of individual culms along with regeneration of new culms from the rhizomes. Retention of old culms causes congestion and incidences of diseases & pests in bamboo forest. Hence treatment of bamboo clump is an essential silvicultural practice for bamboo forest management. Such bamboo forests are worked as per working plan prescription of the concerned Division. To maintain the health of Bamboo forests in the State, an area of **45000 Ha.** has been proposed to be taken up during 2025-26 for bamboo silvicultural operation with SMC measures for which a provision of **Rs.16.27 Cr.** has been kept in this APO.

2.1.3. FOREST PROTECTION

- a) **Forest protection** is an important part of forest management that focuses primarily on prevention & control of destruction of forests due to biotic interference. Steps are taken to ensure mobility of staff deep inside the forest and to improve their communication facilities for regular patrolling and during emergency situations. Improving the means for mobility and communication are key interventions in protection. In this APO 2025-26, it is proposed to engage **227 nos. of hired vehicle with fuel for protection activities** for whole year to increase the mobility and to reduce response time in case of emergency situation in all divisions covering all the Ranges. For this, financial outlay of **Rs.11.85 Crore** has been proposed in APO 2025-26.
- b) As per directions of the Hon'ble Supreme Court of India vide Order dated 06.07.2011 in I.A. No.1868 of 2007 filed by M/s Lafarge Umiyam Mining Pvt. Ltd. in Writ Petition (Civil) No.202 of 1995 in the matter of T.N. Godavarman Thirumulpad versus Union of India and others, Odisha State Government had drafted SOP for Georeferencing of Forest Land. Therefore, digitization of the boundary of Notified Forest area and Revenue forests etc is being carried out in phases. In this APO an outlay of **Rs 22.00 Crore** has been kept to cover 20,838 Km² of Notified Forest area and 4,099 Km² of Deemed and Revenue Forest area.

MC

- c) Further, **Rs 3.54 Crore** has been proposed by Wildlife wing for such **protection/anti-depredation activities**, boat patrolling, fencing & erection of barriers, participation of community for protection, prevention of WL crime etc.

2.1.4. FOREST FIRE PROTECTION

Forest fire causes severe stress and create imbalance in the ecosystem and is also a major concern in the forest management. Large stretches of forest in the State are deciduous forest and highly prone to forest fire. Appropriate interventions including round the clock monitoring of vulnerable areas and deployment of Rapid Response Teams proposed for deployment in case of emergency are therefore required to minimize occurrence of forest fire in the first place and to effectively address the forest fire wherever it happens. Accordingly, following measures for management of forest fire in the state are proposed with total financial outlay of **Rs 36.05 Crore** for Forest wing and **Rs.7.65 Crore** for wildlife wing in the APO 2025-26;

Detail Activity	Physical Target	Fin. outlay (Rs in Cr.)
Fire Protection Rapid response teams involving community youth with hired vehicle for Fire Protection	213 Nos	19.23
Creation and Maintenance of fire line	19500 Km	8.82
Procurement of Fire Blower including fuel and other accessories	306 Nos	1.99
Logistic support for fire squads	213 Nos	1.81
Training on Forest Fire to the frontline Forest Staff	283 Nos	0.28
Awareness Campaign in the ranges	283 Nos	1.42
Fire Watch Tower	10 Nos	2.50
Sub Total		36.05
Fire Protection in Wildlife Area		
Fire-fighting Squads including hired vehicle & its fuel.	48 Nos	4.33
Fire-fighting equipment including Blowers along with fuel.	100 Nos	0.65
Logistics support for the firefighting squads.	48 Nos	0.41
Fire line Creation & maintenance.	5,000 KM	2.26
Sub Total (WL)		7.65
Total		43.70

MC

2.1.5. Soil Moisture Conservation (SMC)

Soil and Moisture Conservation is an important activity to improve the moisture regime of the forest area and arrest soil erosion in degraded forests of the State. This will have positive impact on the growth and regeneration of vegetation as well as ground water level. An area of **5500 Ha.** of degraded forest Land of the State have been proposed to be treated under SMC with different interventions with an outlay of **Rs.21.40 Cr.**

2.1.6. Improvement of Wildlife Habitat

The State is having rich faunal diversity managed through wildlife organization of forest department. The management of wildlife is carried out through a network of protected areas which comes under various wildlife divisions and few territorial divisions. The management of wildlife habitat undertaken by the Wildlife Organization is supported by CAMPA as per CAF Act-2016 and CAF Rule-2018. In this APO, the Wildlife Habitat Restoration and Improvement have been proposed under NPV with an outlay of **Rs.39.75 Crore.**

2.1.7. Voluntary Relocation of Villages from Protected Areas

Voluntary Relocation of villages from the protected areas like Satkosia and Similipal Tiger Reserves, Debrigarh and Kotagarh & other Sanctuaries of the state has been proposed with a financial Outlay of **Rs 30.00 Crore.**

2.1.8. Management of Biological diversity, Biological Resources, Silvicultural Operation and maintenance of Research Garden

Plus tree, clonal multiplication Garden, Clonal seed orchard, Germ Plasm Bank, Progeny trials and production of QPM in Afforestation Program are main moto of research activities for bio-diversity conservation and augmentation of natural regeneration in maintaining research garden for which silvicultural research plays a key role in Forest Department. An amount **of Rs.1.50 crore** has been proposed for research activity and Silvicultural Operation and maintenance of Research Gardens.

2.2. ACTIVITIES UNDER 20% NPV FUND [Rule 5(3)]

2.2.1. Capacity Building

Capacity Building of the frontline staff of Forest Department is an essential component to improve the standards in their operation with recent guidelines and in the scientific management of Forest and Wildlife. Also, there is need to create awareness among community residing near forest areas in the overall management of forest and sustainable utilization of forest produce to fulfill the needs of their livelihood. For the above purpose, a total financial outlay of **Rs.0.50 Crore** has been provisioned in this APO.

2.2.2. Up-gradation of communication and Information Technology

To ensure the transparency in CAMPA activities digital monitoring is being adopted. A website for forest organization has already been developed to facilitate smooth operation of Forest IT. Proposal for upgradation of Communication and information Technology, Geo-ICT based Server infrastructure, procurement and maintenance of IT Equipment and devices in the Forest Wing has been included with financial outlay of **Rs.11.00 Crore**. In the Wildlife areas, it is proposed for installation of VHF base stations and their maintenance, Equipment for monitoring of wild animals and other means of communication in remote areas with financial outlay of **Rs.3.90 Crore**

2.2.3. Infrastructure development

The CAF Rule-2018 provides for utilization of CAMPA fund towards development of basic infrastructure required for forest and wildlife management under two broad categories of (1) Maintenance and construction of forest roads etc. and (2) Construction of Residential/official buildings for front line staff. In APO 2025-26, the following infrastructure has been proposed with financial outlay of **Rs. 30.44 Crore** for Forest and wildlife Divisions including spill over works of previous APOs.

Detail Activity	Physical Target	Unit cost (Rs in Lakhs)	Financial outlay (Rs in Crore)
Construction & Maintenance of Forest Road	350 Km	0.80	2.80
Range Office	4 Nos	39.73	1.59
Range Officer Residence	4 Nos	30.02	1.20
Forester Quarters	34 Nos	25.63	8.71
Forest Guard Quarters	50 Nos	20.26	10.13
Spill Over Works of Previous APO			1.00
Sub Total			25.43
WL AREA			
Maintenance of Forest Road/ Inspection path in Protected Area	626 Km	0.80	5.01
Sub Total (Wildlife)			5.01
Total			30.44

2.2.4. Casual Engagement of Local youth

Forest being the open treasury, illicit felling and smuggling are of great concern and challenge in the efforts to protect and conserve the green cover, though legal provisions are there to deal with forest and wildlife offences. Biotic and other anthropogenic factors affecting the quality of forest are mostly location specific and local community especially the youths having thorough knowledge about the terrain of the area should get more involved in the efforts of forest department in protection. Involvement of local youths in continuous monitoring against encroachment over forest land and unsustainable exploitation of the forest resources will be ensured. Such Forest Protection through community involvement through local youths with logistics being the key intervention has been given priority under CAMPA. In APO 2025-26, provision has been kept for Casual Engagement of Local youth to assist regular staff of state forest department in protection of forest and wildlife (10 persons each in 227 units for whole year). Under this activity **Rs 52.85 Crore** has been proposed for APO 2025-26.

myc

2.2.5. Survey & Mapping of Forest Areas for CA Land Bank

Survey & Mapping of Forest Areas is required to create Land Bank for Compensatory Afforestation and to ensure its further protection for which **Rs.1.00 Crore** has been proposed.

2.2.6. Monitoring & Evaluation

Monitoring of all the schemes and their accounting and timely updating of the information, uploading of data in e-Green watch, OFMS Portal is an essential activity in the field. The internal vigilance wing is also assigned with the work to ensure transparency, qualitative execution along with inter Division Monitoring at Circle level.

Further, as per CAMPA guidelines, all the activities of previous operations carried out under CAMPA are to be monitored and evaluated by internal monitoring as well as through an independent/3rd party organization to assess the quality as well as effective utilization of funds. For Monitoring & Evaluation, a provision of **Rs.1.50 crore** has been proposed.

2.2.7. Publicity & Awareness Programmes

Each year various Forestry activities under CAMPA and other schemes are being implemented. Awareness programmes and important days are observed. Various publicity materials are also prepared to make the targeted stakeholders and general public aware about the programme. An outlay of **Rs.1.00 crore** has been proposed in APO 2025-26 for the same.

3. UTILIZATION OF INTEREST MONEY [Rule 6(a) & (b)]

As per Rule 6 (a) & (b) of CAF Rule 2018, 60% of the interest accrued on monies kept in State Fund shall be used for plantation & protection related activities & 40% towards development and management of State Authority Office, procurement of office equipment and other contingencies of State Authority. Accordingly, the following activities are proposed to be included in the present APO under above category.

myc

3.1. INTEREST MONEY UNDER 60% ACTIVITY

3.1.1. Escalation of program cost due to revision of wage rate:

The enhancement of labour rate at different interval causes change escalation in proposed outlay for which a provision of escalation of program cost has been proposed in this APO with a Financial Out lay of **Rs 3.00 Crore**.

3.1.2. Maintenance of 18-month-old seedling:

The activities like the maintenance of 18-month-old seedling to be planted during July, 2025 (3 months) and maintenance of 18-month-old seedlings to be planted during July, 2026 (12 months) and raising of seedling during January, 2026 to be planted during July, 2027(3 months) has been proposed with financial outlay of **Rs 83.60 Crore**.

Sl	Activity	Physical Target (in Nos)	Financial outlay (in Crore)
1	Maintenance of 18 months seedling to be planted during July, 2025 (3 months) raised during January 2024	1.46 Cr	12.13
2	Maintenance of 18 months seedling to be planted during July, 2026 (12 months) raised during January 2025	1.20 Cr	55.51
3	Raising of 18 months seedling to be planted during July, 2027 (3 months) to be raised during January 2026	1.20 Cr	15.96
		Total	83.60

3.2. INTEREST MONEY UNDER 40 % ACTIVITY

The activities like expenditure of management of State Authority and Furnishing & Installation of Audio-Video System in the State Forest Academy have been proposed in APO 2025-26 with an outlay of **Rs.15.00 Crore** as per details given below:

myc

S1	Activity	Physical Target	Financial Outlay (in Crore)
1	Management of office establishment of State Authority	LS	3.00
2	Audio-Visual and Furnishing works of State Forest Academy	LS	10.00
3	Charges for consumption of internet data for field Staff and Hqrs. etc.	LS	2.00
Total 40% Interest			15.00

The following directions were given by the Chief Secretary, Odisha.

- a) We should have state of the art technology based systems for monitoring of the plantation activities on a GIS Platform using satellite and other data e.g. from Drone Surveys etc. and all such information should be in the public domain.
- b) Focus should be given for quality monitoring and evaluation of different activities of CAMPA.
- c) Information of all CAMPA activities are to be shared in the public domain.
- d) Effective Site-Specific WL Management plans are to be prepared by the officers having technical skills/ expertise/ expert agencies/ professionals to address the site specific WL issues.
- e) Thrust should be given for raising plantation in Urban and Industrial Areas to address pollution issues under any appropriate schemes of the Department and the nurseries should be raised in villages next to mines to give them livelihood opportunities.

After detailed disscussion, the committee approved the proposed activities of APO 2025-26 with an outlay of **Rs 1078.10 Crore** for submission to National Authority, CAMPA, MoEF & CC for consideration and final Approval

The details of the proposed activies of APO 2025-26 approved by the State level Steering Committee are as follows.

Activity wise details of APO 2025-26
