Introduction:

The “Compensatory Afforestation Fund Management and Planning Authority” (CAMPA) is a national programme funded by the Ministry of Environment, Forests and Climate Change; Government of India being implemented in all the states of the country. Under this programme large scale activities have been taken up to accelerate preservation of natural forests, management of wildlife, infrastructure development in the sector and other allied works.

In order to meet the demand of forest produce and to increase the forest and tree cover, besides laying efforts for afforestation works through social forestry, farm forestry, agro-forestry, community forestry, afforestation on wasteland, Compensatory Afforestation through CAMPA is one of the important components.

In West Bengal, the Hon’ble Supreme Court also approved the guidelines prepared by the MoEF&CC for utilizing CAMPA funds by an agency to be constituted in the states and to be known as the West Bengal State CAMPA. These guidelines were notified by the MoEF&CC, Government of India on 2nd July, 2009. In the state of West Bengal CAMPA seeks to promote, conservation, protection, regeneration and management of existing natural forests, wildlife and its habitat within and outside protected areas, compensatory afforestation. Environmental services, including

- Wood, non-timber forest products, fuel, fodder and water, and provision of services such as grazing tourism, wildlife protection and life support.
- Regulating services such as climate regulation, disease control, detoxification, carbon sequestration and health of soils, air and water regimes; (forest range level). In short, the department would be modernized to protect and regenerate the forests and wildlife habitat.
- Non-material benefits obtained from ecosystems, spiritual, recreational, aesthetic, inspirational, educational and symbolic; and.
- Supporting such other services necessary for the production of ecosystem services, biodiversity, nutrient cycling and primary production, Research, training and capacity building.

After years of operations, it has become imperative that projects implemented so far, are assessed for outcomes and impacts. This would not only help in highlighting positive achievements but more importantly, aid in addressing areas of concern. For the unbiased assessment a tender notice has been called for the ‘**Third party Monitoring of WBCAMPA works for the financial year 2019-2020 against NIT no. 04/ CAMPA/ 2C-203/ 2021-2022 dated 27.10.2021**’.

In this project the third-party monitoring is being conducted for the Financial Year 2019-2020. Where the evaluation is being made on the plantation and non-plantation works funded by WBCAMPA. Total 33 Forest Divisions in West Bengal is being evaluated through this project.

Methodology:

Each of the 33 Divisional forest office of South West Bengal and North Bengal were visited as per the schedule which was earlier sent to the office of the PCCF and CEO WBCAMPA. All the bills and vouchers along with other necessary documents like cash book, note book etc were checked and verified with the amount as provided by the WBCAMPA office for the financial year 2019-2020.

For plantation activities: list of plantations including range/beat/mouzas/area etc was collected from the respective forest divisional office. After collecting the plantation list each of the plantation sites were visited and 5% of the total plantation area has been sampled with a minimum quadrat size of 50m X 50m. In each sample plot all the plants (dead or alive) were counted and survival percentage has been calculated. As per methodology proposed by **IIFM, Bhopal** (Tambe *et al.*, 2016) average height (m) and girth (cm) were measured in the respective sample plots. GPS coordinates of 4 corners of each sampling plots along with photograph of plantation sites were taken. KML Maps of all sampling units (50mX50m) were prepared in Google Earth platform and plantation areas were verified. For up to 3-year-old plantation the girth was measured 50 cm above ground level, for up to 5-year-old plantations the girth was measured 100 cm above ground level and plantations older than 5 years, diameter at breast height were taken.

For non-plantation activities: It includes construction of toilets in JFMCs, construction/renovation of Range Offices, construction/renovation of staff quarters (Group-C, Group-D, Driver etc.), establishment of nursery, purchase of equipment, purchase of boats, JFMC micro-plan activities including earthen dam, digging ponds, submersible pumps, construction of watch tower etc. of concerned forest divisions. Information on all non-plantation activities of each forest division were collected from concerned divisional office and thereafter visited with officials of forest Range/Beat office and photographed as evidence of successful completion of the work.

Scoring of the non-plantation/asset creation/other activities were done based on the marking criteria as follows:

- 5- Verified Physically and with documents
- 4- Verified Physically but documents are not traceable
- 3- Verified from available documents only
- 2- Verified with the other sources (circumstantial evidences)
- 1- Could not be traced

Weighted average survival percentage of plantations in each forest division was calculated using the following formula –

$$\text{Weighted average survival} = \frac{\text{Area} * \text{Survival \%}}{\text{Total area}}$$

Performance, based on the weighted average survival percentage, the plantations in each of the forest divisions (2019) were categorised as follows –

Sl. No.	Category	Weighted average survival (%)
1	Category A	75% and above
2	Category B	60%-74%
3	Category C	40%-59%
4	Category D	Less than 40%

The division wise list of plantation and non-plantation works was provided along with the NIT (Annexure - 1)

Discussion:

- 16 forest divisions (7 in South-West Bengal and 9 in North Bengal) were provided financial assistance by WBCAMPA in the financial year 2019-2020 only for creation of afforestation works in respective forest ranges (Table – I).
- 15 forest divisions (8 in South-West Bengal and 7 in North Bengal) were financially assisted by WBCAMPA in the financial year 2019-2020 only for maintenance of older plantations in respective forest ranges.
- Overall, 9 forest divisions (4 in South-West Bengal and 5 in North Bengal) were provided financial assistance by WBCAMPA in the financial year 2019-2020 only for advance work of afforestation which included clearing of weeds, pit digging, seedling preparation etc. in respective forest ranges.

Table – I. Average weighted survival percentage of the creation work in financial year 2019-2020 under financial assistance of WBCAMPA

Sl. No.	Forest Division	Average weighted survival %	Category*
1	Rupnarayan	98.47	A
2	Jalpaiguri	98.04	A

- In South-West Bengal, most of the afforestation works (creation and maintenance) included miscellaneous plantation along with plantation of miscellaneous indigenous plant species. The miscellaneous plantations were done with a ratio of 70:30 or 60:40 of *Acacia auriculiformis* (Akashmoni/Sonajhuri) and other miscellaneous indigenous plant species like *Azadirachta indica* (Neem), *Alstonia scholaris* (Chhatim), *Terminalia bellirica* (Bahera), *Terminalia arjuna* (Arjun), *Sclanchera oleosa* (Kusum), *Gmelia arborea* (Gamar), *Dalbergia sissoo* (Sishu), *Syzigium jambolanum* (Jam), *Albizia lebbek* (Sirish), *Phyllanthus emblica* (Amloki), *Pongamia pinnata* (Koronj), *Bombax ceiba* (Shimul), *Madhuca Latitudeifolia* (Mohul) etc. Some plantations were pure stand of *Shorea robusta* (Sal) and a few plantations were Sal and its associates like Bahera, Mahua, Haritaki (*Terminalia chebula*), Kurchi (*Holarrhena antidysenterica*) etc.
- In Silviculture South Division seed stand of *Pterocarpus marsupium* (Piasal), *Adina cordifolia* (Holdu/Korom), *Terminalia tomentosa* (Ashan), *Terminalia arjuna* (Arjun) and *Acacia auriculiformis* (Akashmoni/Sonajhuri) were created in the financial year 2019-2020.

- In North Bengal, most of the afforestation works (creation and maintenance) were concentrated to plantation of miscellaneous plant species and grass fodders. In miscellaneous plantations, species like *Acacia catechu* (khayer), *Lagerstroemia speciosa* (Jarul), *Dillenia indica* (Chalta), *Phyllanthus emblica* (Amloki), *Bischofia javanica* (Kainjal), *Mallotus philipensis* (Sindure), *Terminalia microcarpa* (Panisaj), *Amoora wallichii* (Lali), *Oroxylum indicum* (Totola), *Terminalia chebula* (Hartoki/Harra), *Holarrhena pubescens* (Khirra/Kurchi), *Duabanga grandiflora* (Lampate), *Santalum album* (Swet Chandan), *Schima wallichii* (Chilauney) etc. were found. The grass fodder plantations of Dhadda, Chepti, Purundi etc. were mostly concentrated in the Gorumara Wildlife Division and Jaldapara Wildlife Division for serving the purpose of habitat management of large herbivores like Rhino, Elephant, Gaur etc.

- A total of 20 group-C quarters were renovated in 7 forest divisions under the financial assistance of WBCAMPA in the financial year 2019-2020.
- A total of 82 group-D quarters were renovated in 5 forest divisions under the financial assistance of WBCAMPA in the financial year 2019-2020.
- 3 field staff quarters were renovated in Jalpaiguri forest division under the financial assistance of WBCAMPA in the financial year 2019-2020.
- A total of 97 toilets were constructed in JFMCs of 4 forest divisions under the financial assistance of WBCAMPA in the financial year 2019-2020.

Observation

- The plantation and non-plantation activities of concerned forest divisions under the financial assistance of WBCAMPA in the financial year 2019-2020 were satisfactory except in few cases.
- The growth and survival of miscellaneous plantations (in South-West Bengal) and grass fodder plantations (North Bengal) was observed to be the best among all.
- The seed stand of five indigenous species (Akashmoni, Ashon, Holdu, Arjun, Piasal) in 25 ha under Silviculture South Division were very well maintained.
- Weed cleaning of plantation was observed to be quite challenging (as discussed with concerned authorized forest official) in some cases.

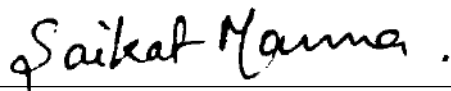

- Damage of plantations and fencing were observed in frequent interval in some forest divisions like Jhargram, Medinipur, Bankura, Gorumara WL, Jaldapara WL, Buxa East etc.
- The Jhargram Training Centre is now shifted to Hijli, Kharagpur.
